

SBOM FRAMING GROUP - REPORT OUT PHASE II

CO-CHAIRS:

ART MANION & MICHELLE JUMP

FEB 13, 2020

Agenda

1. Current Topics under Phase II
2. Collaboration with other groups
3. Feedback Requested
4. Next Steps

Current Topics

The Framing group is focused on several key topics as a follow-on from our Phase I work, listed in priority level:

1. How to Share an SBOM
2. Component/Identify Naming
3. POC pressure test of the baseline SBOM
4. Capability Past the Baseline SBOM
5. Vulnerability vs Exploit (VEX) - later priority

Current Topics

The Framing group is focused on several key topics as a follow-on from our Phase I work:

1. How to Share an SBOM - POC
2. Component/Identify Naming -POC
3. POC pressure test of the baseline SBOM
4. Capability Past Baseline
5. Vulnerability vs Exploit (VEX) - POC priorities this

Liaisons established
with POC

Collaboration with POC

1. **Identify topics of joint focus**
2. **Establish Liaisons to provide updates**
3. **No dependencies** on work products. Neither group will be held up by the other but progress and ideas will be shared.
4. **Document Walk Through.** Teams met to walk through their documents to ensure full understanding of Phase I reports.
5. **No additional meetings unless needed.** The group did not want to overburden the members with additional meetings. Collaboration will be primarily with short liaison updates but no formal established meetings between groups.

Feedback Requested

- ◆ Is the baseline SBOM sufficient?
 - ◆ This presumes naming is solved?
 - ◆ What else needs to be named, suppliers?
- ◆ We have designed a distributed model. Are there arguments for a centralized or federated one?
- ◆ We've discussed vulnerability management as the "capability past baseline," which lead to work on VEX. What is the priority of developing the vulnerability management capability?
 - ◆ We expect vulnerability management to be part of the POC collaboration.

Next Steps

- ◆ Topics all established as draft documents, team adds content as we go
 - Stored in google drive – ask for access to view content
- ◆ Work through list of topics, per priority ranking
- ◆ Continue collaboration with POC
- ◆ Reach out to Tools group to identify liaison needs
