Re: Implementation of the Middle Class Tax Relief and Job Creation Act of 2012

Dear Mr. Turetsky:

The First Responder Network Authority (FirstNet) hereby requests a license for use of the 763-768/793-798 MHz band pursuant to Section 6201 of the Middle Class Tax Relief and Job Creation Act of 2012 (Act).<sup>1</sup> The Act created FirstNet as an independent authority within the National Telecommunications and Information Administration (NTIA), and requires FirstNet to take all actions necessary to ensure the building, deployment, and operation of the nationwide public safety broadband network.<sup>2</sup>

The Act also requires the Federal Communications Commission (Commission) to grant FirstNet a single license, covering the existing public safety broadband spectrum and the 700 MHz D Block (hereafter referred to as the Public Safety Broadband License).<sup>3</sup> The Commission has stated that it would grant this license “as soon as possible” after FirstNet submits a request for the license specified in Section 6201 of the Act.<sup>4</sup>

<sup>1</sup> Middle Class Tax Relief and Job Creation Act of 2012, Pub. L. No. 112-96, 126 Stat. 156, 47 U.S.C. § 1401 *et seq.* (2012), The Act also adds 1 MHz, at 769 MHz and at 799 MHz, the former guard band between public safety broadband and narrowband spectrum. Third Generation Partnership (3GPP) standards define the allowable channel bandwidth within a given spectrum allocation. See 3GPP TS 36.521-1, Table 5.4.2.1-1, E-UTRA channel bandwidth (Release 10) (June 2012), available at <http://www.3gpp.org/ftp/Specs/html-info/36-series.htm>. The maximum (usable) channel bandwidth allowed under these standards within the current public safety broadband allocation at 700 MHz is 10 MHz.

<sup>4</sup> Implementing Public Safety Broadband Provisions of the Middle Class Tax Relief and Job Creation Act of 2012, Report and Order, PS Docket No. 12-94, PS Docket No. 06-229, WT Docket No. 06-150; DA 12-1462, at ¶ 21 (Sept. 7, 2012).

The Acting Secretary of Commerce appointed the FirstNet Board on August 20, 2012.<sup>5</sup> The Board was sworn in and held its first meeting on September 25, 2012. At that meeting, the Board approved a resolution authorizing me to request that the Commission issue the Public Safety Broadband License. To that end, I respectfully request that the Commission issue this license to FirstNet as soon as possible.

If there are any questions, or if NTIA may be of assistance in facilitating this process, please contact Uzoma Onyeije at 202-482-0016 or Gina Harrison at 202-482-2695.

Sincerely,

Samuel Ginn  
Chairman of the Board  
First Responder Network Authority
