11a. Describe your progress meeting each major activity/milestone approved in the Baseline Report for this project; any challenges or obstacles encountered and mitigation strategies you have employed; planned major activities for the next quarter; and any additional project milestones or information.

Milestone activities:

Several existing state employees continue to support SLIGP reports and FirstNet outreach activities, including administrative and financial support personnel, and the SPOC/SWIC. We intended that a project support position would also begin, but this position will not be able to start until additional guidance is received from FirstNet. Other activities: We are relying on existing user information from our land mobile radio (LMR) system to determine potential National Public Safety Broadband Network (NPSBN) users and will widen our scope on in the future, through the distribution of surveys. Weekly updates and other information such as public notices received from FirstNet are forwarded to our planning group distribution list which numbers approximately 113 people. Initial consultation with FirstNet was conducted on 4/30/15 with 49 attendees. 11b. If the project team anticipates requesting any changes to the approved Baseline Report in the next quarter, describe those below. Note that any substantive changes to the Baseline Report must be approved by the Department of Commerce before implementation.

We anticipated developing and distributing a FirstNet factsheet, but have decided to rely on FirstNet material at this time to keep the message consistent regarding FirstNet activities.

11c. Provide any other information that would be useful to NTIA as it assesses this project's progress.

Our work this quarter focused on remaining plugged into workshops, webinars and conference calls. We remain actively engaged with Federal/state and local organizations and associations including FirstNet, NTIA, NASCIO, NASTD, RECCWG, NCSWIC and Region IV RECCWG.

11d. Describe any success stories or best practices you have identified. Please be as specific as possible.

No success stories or best practices were identified in Quarter 8.

12. Personnel

12a. If the project is not fully staffed, describe how any lack of staffing may impact the project's time line and when the project will be fully staffed.

The project is not fully staffed, and is currently being assisted by the following staff personnel identified below in item #12b. We don't anticipate any changes to the project's timeline.

12b. Staffing Table

Job Title	FTE %	Project(s) Assigned	Change
SWIC/SPOC	.5	Provide oversight of all SLIGP project activities	No change
Administrative Assistant	.5	Provide administrative support for grant management, governance meetings, and outreach activities	No change
Finance Assistant	.25	Provide support for budget management, procurement, and processing invoices	No change

According to the Paperwork Reduction Act, as amended, no persons are required to respond to a collection of information unless it displays a currently valid OMB control number. Public reporting burden for this collection of information is estimated to average 10 hours per response for the application process, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding the burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to Michael Dame, Director, State and Local Implementation Grant Program, Office of Public Safety Communications, National Telecommunications and Information, U.S. Department of Commerce (DOC), 1401 Constitution Avenue, N.W., HCHB, Room 7324, Washington, D.C. 20230.
