11a. Describe your progress meeting each major activity/milestone approved in the Baseline Report for this project; any challenges or obstacles encountered and mitigation strategies you have employed; planned major activities for the next quarter; and any additional project milestones or information.

Stakeholder meetings: Wisconsin has six Regional Interoperability Coordinators (RIC's) who attend various conferences for the purpose of education and outreach. During the reporting period of 7/1/2014-9/30/2014 they participated in and attended the Public Service Commission Broadband Symposium, the DOJ CIB Conference interoperability break out session, and monthly conferences.

Broadband Conference: The Wisconsin Department of Justice sent two representatives to the FEMA Region V Confab SPOC/SWIC/CIO meeting as well as the APCO Broadband Summit in New Orleans.

Staff hires:

Governance Meetings: During this reporting period, seven governance meetings were held throughout the State which are also used for education and outreach on the Nationwide Public Safety Broadband Network. They were the West Central Region SCIP Implementation Council Meeting, Northeast SCIP Implementation Council Meeting, Public Safety Wireless Broadband Workgroup meeting, East Central Regional SCIP Implementation Council, South East Region SCIP Implementation Council, North West Region SCIP Implementation Council, and one Interoperability Council meeting.

Other Activities: WI Department of Justice staff participated in several other activities, which included teleconferences, meetings, and phone interviews. For this reporting period we had two FirstNet Region V conference calls, a FirstNet 2014 Quarterly Webinar, three Regional SCIP Coordinator Teleconferences, and the Wisconsin Quarterly Call with SLIGP staff. The SWIC was also invited to give a presentation at the DOI's Crime Information Bureau Annual Conference in Green Bay, WI. The presentation, "What's New in Interop", gave an overview of the FirstNet history, vision, and a roadmap for the future. In addition, DOI staff participated in the following webinars or teleconferences: Public Safety Broadband: The State of the States, SPOC and PSAC conference call: FirstNet Board Meeting Outcomes, and the FirstNet Webinar: RFI and PN Review for SPOCs and PSAC members.

11b. If the project team anticipates requesting any changes to the approved Baseline Report in the next quarter, describe those below. Note that any substantive changes to the Baseline Report must be approved by the Department of Commerce before implementation.

No changes anticipated at this time.

11c. Provide any other information that would be useful to NTIA as it assesses this project's progress.

Wisconsin continues to actively educate itself on the latest developments on NPSBN and FirstNet. We have been meeting with the other Region V states regarding collaboration for initial consultation with FirstNet.

11d. Describe any success stories or best practices you have identified. Please be as specific as possible.

Through the education and awareness campaign that Wisconsin has begun, we are starting to receive responses from public safety regarding how they are currently using data, what they would need from the Nationwide Public Safety Broadband Network (NSPBN) to consider using, and what they desire from the NPSBN. By compiling this data we will be able to plan for the NPSBN in the best interest of Wisconsin and provide accurate and detailed information to FirstNet.

12. Personnel

12a. If the project is not fully staffed, describe how any lack of staffing may impact the project's time line and when the project will be fully staffed.

12b. Staffing Table

Job Title	FTE%	Project(s) Assigned	Change
Program and Policy Analyst	.50	Provides administrative support relating to grant management, governance meetings, outreach activities, and fulfill program reporting requirements	Changing this job title to Program and Policy Analyst.
Justice Program Supervisor	.50	Overall program oversight	Changed title
Grants Specialist 1	.15	Provides financial balances, completes Financial Status Report (FSR)	
Grants Specialist 2	.15	Completes travel reimbursement and pays general costs

According to the Paperwork Reduction Act, as amended, no persons are required to respond to a collection of information unless it displays a currently valid OMB control number. Public reporting burden for this collection of information is estimated to average 10 hours per response for the application process, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding the burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to Michael Dame, Director, State and Local Implementation Grant Program, Office of Public Safety Communications, National Telecommunications and Information Administration, U.S. Department of Commerce (DOC), 1401 Constitution Avenue, N.W., HCHB, Room 7324, Washington, D.C. 20230.
