Applicant Name: DigitalBridge Communications Corp.

_____ **Public Notice Submissions** _____

-----**Service Area:** Obion TN

Submitter: Ken-Tenn Wireless L.L.C.

Comment: Ken-Tenn Wireless is currently providing wireless internet in the Obion County area. We have had service located in Obion County for 6 years. We feel that it would not be a good use for tax payers money to allow Digital Bridge Communications to obtain an grant for this area when we have provided our private capital to build our network. We have 7 towers spread out in Digital Bridge's proposed area and feel that around 80% of the households in this area can get our service.
