

Broadband USA Applications Database

Applicant Name: Kenosha County Government

Public Notice Submissions

-----**Service Area:** Kenosha County

Submitter: Time Warner Cable, Inc

Comment: As shown in the attached map and exhibit, TWC currently provides broadband Internet access service in the Proposed Funded Service Area. In addition, we advertise service of speeds above 3 Mbps throughout this service area. We pass over 50% of households, and either (1) have actual broadband subscribership of over 40% of the households in these census blocks or (2) the combined broadband subscribership of the wireline broadband providers (including TWC) in these census blocks is reasonably likely to exceed 40%. Therefore, that portion of the proposed funded service area that overlaps Respondent's service area reflected in this response is neither "unserved" or "underserved."

Submitter: TDS Telecom

Comment: TDS Telecom offers 3Mbps broadband service within the applicants proposed service area and provides broadband service to customers pursuant to the NOFA definitions.

Submitter: Charter Communications

Comment: Charter Communications ('Charter'), a broadband service provider, has invested capital to provide a full range of Broadband services, including High Speed Internet services, in this service area. The applicant's request in the proposed under-served and un-served service area would create an overlap in Charter's service area. Charter's response includes the necessary information to validate the overlapping condition as a result of this applicant's request.

Submitter: AT&T

Comment: AT&T is providing data about its wireline and mobile broadband

footprint to assist in determining whether the applicant's proposed service area, which may be part of a larger application and project, satisfies the unserved and underserved eligibility requirements.

Additional information regarding other broadband service providers' currently operating in the service area may be needed in order to make a reasonable analysis or a conclusive determination.
