

Broadband USA Applications Database

Applicant Name: InternationalBroadband Electric Communications

Public Notice Submissions

-----**Service Area:** IBEC Service Area 3 B

Submitter: SpeedNet, LLC

Comment: SpeedNet currently provides service to a large portion of the application submitted by IBEC. SpeedNet provides wireless broadband service with technology that operates in the 2.5 GHz spectrum band. SpeedNet began providing wireless broadband connections in 2001 and has been privately back by two partners John Ogren and Robert Liggett. This application would jeopardize years of investment, and operational expense by funding an area already served by Speednet.

-----**Service Area:** IBEC Service Area 3 A

Submitter: Barry County Telephone Company

Comment: Barry County Telephone Company currently offers broadband services (DSL) in the proposed funded service area.
