

## Broadband USA Applications Database

**Applicant Name:** NTCH, Inc.

---

### Public Notice Submissions

---

-----**Service Area:** California

**Submitter:** Antilles Wireless, LLC

**Comment:** Antilles Wireless, dba Cable USA, provides high speed data service with 3 Meg download speeds to Calipatria, CA. Cable USA launched high speed data service within the last 12 months but has seen increased penetration each month. We also compete against AT&T who offers DSL high speed data in this area. With two providers in Calipatria, it is not deemed necessary to provide funding to build out a last mile project in this area.

**Submitter:** Time Warner Cable

**Comment:** As shown in the attached map and exhibit, TWC currently provides broadband Internet access service in the Proposed Funded Service Area. In addition, we advertise service of speeds above 3 Mbps throughout this service area. We pass over 50% of households, and either (1) have actual broadband subscribership of over 40% of the households in these census blocks or (2) the combined broadband subscribership of the wireline broadband providers (including TWC) in these census blocks is reasonably likely to exceed 40%. Therefore, that portion of the proposed funded service area that overlaps Respondent's service area reflected in this response is neither "unserved" or "underserved."
