

Broadband USA Applications Database

Applicant Name: X-Press Net, Inc.

Public Notice Submissions

-----**Service Area:** Drummond - Major

Submitter: Pioneer Telephone Cooperative

Comment: Pioneer Telephone Cooperative, Inc. through its subsidiary Pioneer Long Distance, Inc. (PLDI), has been offering broadband speed data service to subscribers for over 10 years. The area applied for by the ARRA applicant, which falls within the telephone exchange boundary is served with high speed internet broadband service. PLDI also offers IPTV service to its subscribers in the towns using the Pioneer's broadband plant.

Submitter: AT&T

Comment: AT&T is providing data about its wireline and mobile broadband

footprint to assist in determining whether the applicant's proposed service area, which may be part of a larger application and project, satisfies the unserved and underserved eligibility requirements.

Additional information regarding other broadband service providers' currently operating in the service area may be needed in order to make a reasonable analysis or a conclusive determination.

AT&T has attempted to use the available manual mapping tool, to the best of its ability, to approximately depict its combined wireline and 3G mobile broadband service area footprint overlaid on the Applicant's proposed funded service area.

Submitter: KanOkla Networks

Comment: KanOkla Networks has been providing our customers the best in telecommunications/data technology for almost 60 years. We are the leader in our service areas for rolling out new and innovative services to our subscribers. We currently offer broadband service, at speeds up to 6 Mbps, to 100% of our current and potential customers. KanOkla is in the midst of installing Fiber To The Home (FTTH) to all of our exchange areas, bringing the capability of 100 Mbps to all homes and businesses throughout our areas. This project, with its wealth of bandwidth for our subscribers, will position our communities for the future.

Submitter: Suddenlink Communications

Comment: This response conclusively demonstrates that Suddenlink and its competitors already offer robust broadband service within the mapped area of the applicant's proposed funded service area and that this mapped area is neither unserved nor underserved. Additional information is provided in the uploaded document, including (1) sample marketing material; (2) a guide on how to read the data we entered in the "Existing Broadband Subscribers" section of this response; (3) a summary of the vendor and methodology used for estimating competitive-service subscribers in the mapped area; (4) Suddenlink contact information, should one or more federal agencies have questions or require additional information; and (5) a summary of concerns with the response process and the limitations that process has placed on our ability to provide NTIA/RUS with relevant, timely data.

-----**Service Area:** Calumet - Caddo

Submitter: AT&T

Comment: AT&T is providing data about its wireline and mobile broadband footprint to assist in determining whether the applicant's proposed service area, which may be part of a larger application and project, satisfies the unserved and underserved eligibility requirements. Additional information regarding other broadband service providers' currently operating in the service area may be needed in order to make a reasonable analysis or a conclusive determination.

AT&T has attempted to use the available manual mapping tool, to the best of its ability, to approximately depict its combined wireline and 3G mobile broadband service area footprint overlaid on the Applicant's proposed funded service area.

-----**Service Area:** Tonkawa - Grant

Submitter: AT&T

Comment: AT&T is providing data about its wireline and mobile broadband footprint to assist in determining whether the applicant's proposed service area, which may be part of a larger application and project, satisfies the unserved and underserved eligibility requirements.

Additional information regarding other broadband service providers' currently operating in the service area may be needed in order to make a reasonable analysis or a conclusive determination.

AT&T has attempted to use the available manual mapping tool, to the best of its ability, to approximately depict its combined wireline and 3G mobile broadband service area footprint overlaid on the Applicant's proposed funded service area.

Submitter: KanOkla Networks

Comment: KanOkla Networks has been providing our customers the best in telecommunications/data technology for almost 60 years. We are the leader in our service areas for rolling out new and innovative services to our subscribers. We currently offer broadband service, at speeds up to 6 Mbps, to 100% of our current and potential customers. KanOkla is in the midst of installing Fiber To The Home (FTTH) to all of our exchange areas, bringing the capability of 100 Mbps to all homes and businesses throughout our areas. Submitter: AT&T

Comment: AT&T is providing data about its wireline and mobile broadband footprint to assist in determining whether the applicant's proposed service area, which may be part of a larger application and project, satisfies the unserved and underserved eligibility requirements.

Additional information regarding other broadband service providers' currently operating in the service area may be needed in order to make a reasonable analysis or a conclusive determination.

AT&T has attempted to use the available manual mapping tool, to the best of its ability, to approximately depict its combined wireline and 3G mobile broadband service area footprint overlaid on the Applicant's proposed funded service area.

-----**Service Area:** Tonkawa - Kay

Submitter: Cable One, Inc.

Comment: Cable One, Inc. is a multi-system broadband provider operating in 19 states. Cable One offers residential broadband service with speeds up to 10 MB and customizable commercial solutions with flexible bandwidth offerings from 5Mbps to 1 Gbps. By November 1, 2009, the majority of Cable One systems will also be offering 12 Mb residential broadband service with a 20 MB boost. Cable One provides its subscribers with quality service offerings at competitive rates. Cable One expends substantial capital and resources to ensure that customers enjoy the latest technology and the highest standards of customer service, and has made its customers and its communities its first priority.

Please refer to our supporting documentation and comments that establish that Cable One already operates in census tract(s) encompassing or included in Applicant's Proposed Funded Service Area. The uploaded document includes maps showing census tracts and homes passed for each the applicable systems, current advertisements for residential and commercial broadband offerings, and subscriber data by census tract.

Cable one's current broadband service offerings are as follows:

Residential:

Economy, Speed (Down/up) - 1.5 Mb/150 kbps, Service Rate - \$20.00

Standard , Speed (Down/up) - 5 Mb/500 kbps, Service Rate - \$43.00

Premium, Speed (Down/up) - 10 Mb/1 Mb, Service Rate - \$53.00

Commercial:

Economy, Speed (Down/up) - 5 Mb/1.0 Mb, Service Rate - \$69.65

Standard, Speed (Down/up) - 10.0 Mb/1.0 Mb, Service Rate - \$85.95

Premium, Speed (Down/up) - 12.0 Mb/1.5 Mb, Service Rate - \$99.95

Ultra, Speed (Down/up) - 15.0 Mb/2.0 Mb, Service Rate - \$199.95

Enterprise Plus, Speed (Down/up) - 20.0 Mb/2.5 Mb, Service Rate - \$299.95

Discounted bundles and promotional pricing are also available.

Submitter: Utopian Wireless Corporation

Comment: Proprietary data regarding actual service provider broadband penetration in the proposed service area for this application demonstrates the area is already served by broadband options and

therefore this application is ineligible for funding pursuant to the requirements of the Broadband Initiatives Program (BIP) and Broadband Technologies Opportunities Program (BTOP).

Submitter: AT&T

Comment: AT&T is providing data about its wireline and mobile broadband footprint to assist in determining whether the applicant's proposed service area, which may be part of a larger application and project, satisfies the unserved and underserved eligibility requirements.

Additional information regarding other broadband service providers' currently operating in the service area may be needed in order to make a reasonable analysis or a conclusive determination.

Submitter: Get LLC Real Cable

Comment: Funds are being provided to three other providers in the same area. Also, this area is already served and other providers exist. This summary response has been provided by Get LLC Real Cable that services the community of Blackwell OK. The electric cooperative Kay electric provides service in the surrounding area of Blackwell. Four applicants are seeking money for an area already served, this is a waste of money and is injurious to existing providers.

Submitter: Allegiance Communications, LLC

Comment: Allegiance Communications (Allegiance) currently provides a wide array of broadband offerings within the proposed funded service area. Allegiance has offered broadband services in excess of the 3 MB bandwidth requirement as set forth in the ARRA, NOFA and BIP/BTOP guidelines, all prior to the ARRA approval. Allegiance's service area already provides for "sufficient access to broadband service to facilitate rural economic development", as well as allows for choice of service providers through competing with Local Exchange Carriers, and allows for leasing of services through our own facilities. Allegiance's opinion of the proposed funded service area is that of excess spending where funds could be better used in other portions of the country to deploy broadband service in accordance with the ARRA, NOFA and BIP/BTOP programs. Through funding the proposed service area, excessive competition will be created for all, which may create a short term economic boost, but have severe long term ramifications which may force service providers out of business.

Submitter: KanOkla Networks

Comment: KanOkla Networks has been providing our customers the best in telecommunications/data technology for almost 60 years. We are the leader in our service areas for rolling out new and innovative services to our subscribers. We currently offer broadband service, at speeds up to 6 Mbps, to 100% of our current and potential customers. KanOkla is in the midst of installing Fiber To The Home (FTTH) to all of our exchange areas, bringing the capability of 100 Mbps to all homes and businesses throughout our areas. This project, with its wealth of bandwidth for our subscribers, will position our communities for the future.

-----**Service Area:** Drummond - Kingfisher

Submitter: Utopian Wireless Corporation

Comment: Proprietary data regarding actual service provider broadband penetration in the proposed service area for this application demonstrates the area is already served by broadband options and therefore this application is ineligible for funding pursuant to the requirements of the Broadband Initiatives Program (BIP) and Broadband Technologies Opportunities Program (BTOP).

Submitter: Pioneer Telephone Cooperative

Comment: Pioneer Telephone Cooperative, Inc. through its subsidiary Pioneer Long Distance, Inc. (PLDI), has been offering broadband speed data service to subscribers for over 10 years. The area applied for by the ARRA applicant, which falls within the telephone exchange boundary is served with high speed internet broadband service. PLDI also offers IPTV service to its subscribers in the towns using the Pioneer's broadband plant.

-----**Service Area:** Calumet - Blaine

Submitter: Pioneer Telephone Cooperative

Comment: Pioneer Telephone Cooperative, Inc. through its subsidiary Pioneer Long Distance, Inc. (PLDI), has been offering broadband speed data service to subscribers for over 10 years. The area applied for by the ARRA applicant, which falls within the telephone exchange boundary is served with high speed internet broadband service. PLDI also offers IPTV service to its subscribers in the towns using the Pioneer's broadband plant.

Submitter: AT&T

Comment: AT&T is providing data about its wireline and mobile broadband footprint to assist in determining whether the applicant's proposed service area, which may be part of a larger application and project, satisfies the unserved and underserved eligibility requirements.

Additional information regarding other broadband service providers' currently operating in the service area may be needed in order to make a reasonable analysis or a conclusive determination.

AT&T has attempted to use the available manual mapping tool, to the best of its ability, to approximately depict its combined wireline and 3G mobile broadband service area footprint overlaid on the Applicant's proposed funded service area.

Submitter: Windstream

Comment: Windstream's data strongly suggest that the proposed funded service area likely does not qualify as an unserved area. Windstream offers facilities-based, terrestrial broadband service at advertised speeds of greater than 768 kbps downstream and 200 kbps upstream to some of the households within the proposed funded service area, and such households can readily subscribe to Windstream's broadband service upon request. Windstream also has reason to believe that competitive broadband offerings are available in exchanges overlapping the proposed funded service area. Given this information, agency officials should further investigate existing broadband offerings within the proposed funded service area, so that officials can be sure that the area, in fact, qualifies as unserved.

Windstream is a communications and entertainment company with more than 1 million broadband customers in 16 states. Investing more than \$200 million in broadband deployment over the last several

years, Windstream now offers approximately 89% of its 3 million voice customers access to quality and affordable broadband service.

The agencies define an “unserved area” as follows: “Unserved area means a proposed funded service area, composed of one or more contiguous census blocks, where at least 90 percent of households in the proposed funded service area lack access to facilities-based, terrestrial broadband service, either fixed or mobile, at the minimum broadband transmission speed (set forth in the definition of broadband above). A household has access to broadband service if the household can readily subscribe to that service upon request.”

-----**Service Area:** Mulhall - Kingfisher

Submitter: Utopian Wireless Corporation

Comment: Proprietary data regarding actual service provider broadband penetration in the proposed service area for this application demonstrates the area is already served by broadband options and therefore this application is ineligible for funding pursuant to the requirements of the Broadband Initiatives Program (BIP) and Broadband Technologies Opportunities Program (BTOP).

Submitter: Pioneer Telephone Cooperative

Submitter: Suddenlink Communications

Comment: This response conclusively demonstrates that Suddenlink and its competitors already offer robust broadband service within the mapped area of the applicant's proposed funded service area and that this mapped area is neither unserved nor underserved. Additional information is provided in the uploaded document, including (1) sample marketing material; (2) a guide on how to read the data we entered in the "Existing Broadband Subscribers" section of this response; (3) a summary of the vendor and methodology used for estimating competitive-service subscribers in the mapped area; (4) Suddenlink contact information, should one or more federal agencies have questions or require additional information; and (5) a summary of concerns with the response process and the limitations that process has placed on our ability to provide NTIA/RUS with relevant, timely data.

-----**Service Area:** Mulhall - Logan

Submitter: Cox Communications Inc.

Comment: Cox Communications, Inc.(Cox) is a broadband communications and entertainment company, providing advanced digital video, Internet, telephone and wireless services over its

nationwide IP network. The third-largest U.S. cable TV company, Cox serves over 6.2 million residences and businesses.

Cox operates in hundreds of communities in 18 states and has invested over \$16 billion in private capital in its network over the last ten years. Cox provides its customers in Oklahoma with 21st century infrastructure that provides advanced broadband, video and telephone services. More than 99.5 percent of the households in our service areas have access to Cox high-speed Internet, at some of the fastest broadband speeds available in the nation.

Cox supports the goals of the American Recovery and Reinvestment Act to extend broadband to parts of the country that are unserved or underserved. We appreciate the efforts of the Rural Utilities Service and the National Telecommunications and Information Administration in making sure that the limited amount of broadband stimulus funding available under the ARRA is targeted toward those consumers in greatest need, rather than to areas that already have access to broadband service.

To assist your agencies in ensuring that ARRA funds are directed to truly unserved and underserved areas, Cox is providing supplemental information that demonstrates, for the above-referenced application, the following: the location of Cox's broadband infrastructure; broadband service levels provided; number of customers served; pricing for each service tier; and marketing materials which demonstrate service availability. Consistent with the statutory requirement to expend funds only for projects in eligible areas, we trust that your agencies will use this information -- along with information from other broadband providers -- to obtain a clear picture of service availability in the area covered by the application. We encourage the use of independent due diligence to determine the extent of other broadband service offerings in the proposed funded service area covered by this submission, if other providers fail to submit information prior to the submission deadline.

We request that this data be treated as confidential and proprietary. Much of the information provided with this letter constitutes trade secrets or commercial information that is privileged and confidential and therefore exempt from public disclosure under 5 U.S.C. § 552(b)(4). Cox does not disclose this information to the public, and release of this information could cause competitive harm, by enabling other broadband providers to tailor their business strategies to unfairly compete with Cox.

Thank you for the opportunity to submit this information. We trust that it will be helpful in your analysis, and will inform your final decision concerning the application.

Submitter: Utopian Wireless Corporation

Comment: Proprietary data regarding actual service provider broadband penetration in the proposed service area for this application demonstrates the area is already served by broadband options and therefore this application is ineligible for funding pursuant to the requirements of the Broadband Initiatives Program (BIP) and Broadband Technologies Opportunities Program (BTOP).

Submitter: @Link Services LLC

Comment: @Link Services LLC is an Oklahoma LLC that has been providing broadband services in Central Oklahoma since 2005. @Link provides high speed internet service with speeds of up to 6Mbps by utilizing fixed wireless technology in both licensed and unlicensed frequencies. @Link provides service in forty four rural, Oklahoma communities and four urban areas in Central Oklahoma through a network of more than 60 tower sites.

The proposed funded service areas overlaps the @Link service area. The overlapping service area has been documented with the use of the mapping tool.

@Link has included copies of advertisements for service within the proposed funded service area.

@Link has determined, at the census block level, the number of residential households currently capable of receiving @Link service. @Link has determined the total number of business establishments within the zip codes included in the polygon. Totals have been provided as requested and supporting documents are available if requested.

@Link has determined, at the census block level, the number of residences and businesses currently subscribing to @Link services as well as the advertised download and upload speeds. Totals have been provided as requested and supporting documentation is available as is necessary.

Submitter: AT&T

Comment: AT&T is providing data about its wireline and mobile broadband footprint to assist in determining whether the applicant's proposed service area, which may be part of a larger application and project, satisfies the unserved and underserved eligibility requirements.

Additional information regarding other broadband service providers' currently operating in the service area may be needed in order to make a reasonable analysis or a conclusive determination.
