

Broadband USA Applications Database

Applicant Name: Riley Consulting

Public Notice Submissions

-----**Service Area:** Sumter National Forest

Submitter: Charter Communications

Comment: Charter Communications ('Charter'), a broadband service provider, has invested capital to provide a full range of Broadband services, including High Speed Internet services, in this service area. The applicant's request in the proposed under-served and un-served service area would create an overlap in Charter's service area. Charter's response includes the necessary information to validate the overlapping condition as a result of this applicant's request.

Submitter: Chester Telephone Company d/b/a TruVista

Comment: As demonstrated in this response, the application of Riley Consulting for Sumter National Forest should not be considered for funding for the relevant service area because 91% or more of the households located within the relevant area already have the ability to access facilities based broadband service.
