

Broadband USA Applications Database

Applicant Name: Citynet, LLC

Public Notice Submissions

-----**Service Area:** Harrison County, WV Span

Submitter: West Virginia PCS Alliance LC dba NTELOS

Comment: NTELOS herein provides information on its existing broadband services within Applicant's proposed service area to be funded.

Submitter: Shentel

Comment: Shentel has an existing fiber optic backbone deployed over a significant portion of the proposed service area.

Submitter: Time Warner Cable

Comment: As shown in the attached map and exhibit, TWC currently provides broadband Internet access service in the Proposed Funded Service Area. In addition, we advertise service of speeds above 3 Mbps throughout this service area. We pass over 50% of households, and either (1) have actual broadband subscribership of over 40% of the households in these census blocks or (2) the combined broadband subscribership of the wireline broadband providers (including TWC) in these census blocks is reasonably likely to exceed 40%. Therefore, that portion of the proposed funded service area that overlaps Respondent's service area reflected in this response is neither "unserved" or "underserved."

Submitter: Suddenlink Communications

Comment: This response conclusively demonstrates that Suddenlink and its competitors already offer robust broadband service within the mapped area of the applicant's proposed funded service area and that this mapped area is neither unserved nor underserved. Additional information is provided in the uploaded document, including (1) sample marketing material; (2) a guide on how to read the data we entered in the "Existing Broadband Subscribers" section of this response; (3) a summary of the vendor and methodology used for estimating competitive-service subscribers in the mapped area; (4) Suddenlink contact information, should one or more federal agencies have questions or require

additional information; and (5) a summary of concerns with the response process and the limitations that process has placed on our ability to provide NTIA/RUS with relevant, timely data.

-----**Service Area:** Doddridge County, WV Span

Submitter: West Virginia PCS Alliance LC dba NTELOS

Comment: NTELOS herein provides information on its existing broadband services within Applicant's proposed service area to be funded.

-----**Service Area:** Ohio County, WV Span

Submitter: Comcast Cable

Comment: Attached is a summary of the Comcast Cable homes passed, subscriber and advertising information related to the service areas encompassed by this application.

-----**Service Area:** Marion County, WV Span

Submitter: West Virginia PCS Alliance LC dba NTELOS

Comment: NTELOS herein provides information on its existing broadband services within Applicant's proposed service area to be funded.

Submitter: Comcast Cable

Comment: Attached is a summary of the Comcast Cable homes passed, subscriber and advertising information related to the service areas encompassed by this application.

Submitter: Time Warner Cable

Comment: As shown in the attached map and exhibit, TWC currently provides broadband Internet access service in the Proposed Funded Service Area. In addition, we advertise service of speeds above 3 Mbps throughout this service area. We pass over 50% of households, and either (1) have actual broadband subscribership of over 40% of the households in these census blocks or (2) the combined broadband subscribership of the wireline broadband providers (including TWC) in these census blocks is reasonably likely to exceed 40%. Therefore, that portion of the proposed funded service area that overlaps Respondent's service area reflected in this response is neither "unserved" or "underserved."

-----**Service Area:** Barbour County, WV Span

Submitter: West Virginia PCS Alliance LC dba NTELOS

Comment: NTELOS herein provides information on its existing broadband services within Applicant's proposed service area to be funded.

-----**Service Area:** Randolph County, WV Span

Submitter: West Virginia PCS Alliance LC dba NTELOS

Comment: NTELOS herein provides information on its existing broadband services within Applicant's proposed service area to be funded.

Submitter: Suddenlink Communications

Comment: This response conclusively demonstrates that Suddenlink and its competitors already offer robust broadband service within the mapped area of the applicant's proposed funded service area and that this mapped area is neither unserved nor underserved. Additional information is provided in the uploaded document, including (1) sample marketing material; (2) a guide on how to read the data we entered in the "Existing Broadband Subscribers" section of this response; (3) a summary of the vendor and methodology used for estimating competitive-service subscribers in the mapped area; (4)

Suddenlink contact information, should one or more federal agencies have questions or require additional information; and (5) a summary of concerns with the response process and the limitations that process has placed on our ability to provide NTIA/RUS with relevant, timely data.

-----**Service Area:** Taylor County, WV Span

Submitter: West Virginia PCS Alliance LC dba NTELOS

Comment: NTELOS herein provides information on its existing broadband services within Applicant's proposed service area to be funded.

Submitter: Comcast Cable

Comment: Attached is a summary of the Comcast Cable homes passed, subscriber and advertising information related to the service areas encompassed by this application.

Submitter: Time Warner Cable

Comment: As shown in the attached map and exhibit, TWC currently provides broadband Internet access service in the Proposed Funded Service Area. In addition, we advertise service of speeds above 3 Mbps throughout this service area. We pass over 50% of households, and either (1) have actual broadband subscribership of over 40% of the households in these census blocks or (2) the combined broadband subscribership of the wireline broadband providers (including TWC) in these census blocks is reasonably likely to exceed 40%. Therefore, that portion of the proposed funded service area that overlaps Respondent's service area reflected in this response is neither "unserved" or "underserved."

-----**Service Area:** Tyler County, WV Span

Submitter: Suddenlink Communications

Comment: This response conclusively demonstrates that Suddenlink and its competitors already offer robust broadband service within the mapped area of the applicant's proposed funded service area and

that this mapped area is neither unserved nor underserved. Additional information is provided in the uploaded document, including (1) sample marketing material; (2) a guide on how to read the data we entered in the “Existing Broadband Subscribers” section of this response; (3) a summary of the vendor and methodology used for estimating competitive-service subscribers in the mapped area; (4) Suddenlink contact information, should one or more federal agencies have questions or require additional information; and (5) a summary of concerns with the response process and the limitations that process has placed on our ability to provide NTIA/RUS with relevant, timely data.

-----**Service Area:** Pleasants County, WV Span

Submitter: West Virginia PCS Alliance LC dba NTELOS

Comment: NTELOS herein provides information on its existing broadband services within Applicant’s proposed service area to be funded.

Submitter: Suddenlink Communications

Comment: This response conclusively demonstrates that Suddenlink and its competitors already offer robust broadband service within the mapped area of the applicant’s proposed funded service area and that this mapped area is neither unserved nor underserved. Additional information is provided in the uploaded document, including (1) sample marketing material; (2) a guide on how to read the data we entered in the “Existing Broadband Subscribers” section of this response; (3) a summary of the vendor and methodology used for estimating competitive-service subscribers in the mapped area; (4) Suddenlink contact information, should one or more federal agencies have questions or require additional information; and (5) a summary of concerns with the response process and the limitations that process has placed on our ability to provide NTIA/RUS with relevant, timely data.

-----**Service Area:** Lewis County, WV Span

Submitter: West Virginia PCS Alliance LC dba NTELOS

Comment: NTELOS herein provides information on its existing broadband services within Applicant’s proposed service area to be funded.

Submitter: Shentel

Comment: Shentel offers last mile broadband service up to 12 Mbps throughout the proposed service area. Also, Shentel has already deployed a fiber optic network that matches the proposed service area.

Submitter: Suddenlink Communications

Comment: This response conclusively demonstrates that Suddenlink and its competitors already offer robust broadband service within the mapped area of the applicant's proposed funded service area and that this mapped area is neither unserved nor underserved. Additional information is provided in the uploaded document, including (1) sample marketing material; (2) a guide on how to read the data we entered in the "Existing Broadband Subscribers" section of this response; (3) a summary of the vendor and methodology used for estimating competitive-service subscribers in the mapped area; (4) Suddenlink contact information, should one or more federal agencies have questions or require additional information; and (5) a summary of concerns with the response process and the limitations that process has placed on our ability to provide NTIA/RUS with relevant, timely data.

-----**Service Area:** Allegheny County, PA Span

Submitter: Armstrong Telephone Co.

Comment: Significant portions of the proposed funded service area (PFSA) in the above Application do not satisfy the BIP or BTOP definitions of "unserved" or "underserved," and thus, should not be eligible to receive BIP or BTOP funding. Armstrong Telephone provides broadband service at speeds of 3MBPS or greater throughout the portions of Applicant's PFSA mapped in this response. (Advertisement uploaded). Armstrong's high speed broadband network passes more than 50%, and its high speed broadband exceeds 40%, of its households within the areas of Applicant's PFSA mapped herein. Given the presence of other broadband service providers in neighboring towns, it is reasonable to conclude that Applicant has failed to meet the required showings for its entire PFSA, and its application should be denied. At a minimum, Applicant has failed to meet the required showing in the portions of its PFSA served by Armstrong, and therefore, its Application should be denied with respect to the areas mapped herein.

-----**Service Area:** Beaver County, PA Span

Submitter: Armstrong Telephone Co.

Comment: Significant portions of the proposed funded service area (PFSA) in the above Application do not satisfy the BIP or BTOP definitions of "unserved" or "underserved," and thus, should not be eligible to receive BIP or BTOP funding. Armstrong Telephone provides broadband service at speeds of 3MBPS or greater throughout the portions of Applicant's PFSA mapped in this response. (Advertisement uploaded). Armstrong's high speed broadband network passes more than 50%, and its high speed broadband exceeds 40%, of its households within the areas of Applicant's PFSA mapped herein. Given the presence of other broadband service providers in neighboring towns, it is reasonable to conclude that Applicant has failed to meet the required showings for its entire PFSA, and its application should be denied. At a minimum, Applicant has failed to meet the required showing in the portions of its PFSA served by Armstrong, and therefore, its Application should be denied with respect to the areas mapped herein.

-----**Service Area:** Wood County, WV Span

Submitter: Suddenlink Communications

Comment: This response conclusively demonstrates that Suddenlink and its competitors already offer robust broadband service within the mapped area of the applicant's proposed funded service area and that this mapped area is neither unserved nor underserved. Additional information is provided in the uploaded document, including (1) sample marketing material; (2) a guide on how to read the data we entered in the "Existing Broadband Subscribers" section of this response; (3) a summary of the vendor and methodology used for estimating competitive-service subscribers in the mapped area; (4) Suddenlink contact information, should one or more federal agencies have questions or require additional information; and (5) a summary of concerns with the response process and the limitations that process has placed on our ability to provide NTIA/RUS with relevant, timely data.

-----**Service Area:** Ritchie County, WV Span

Submitter: Armstrong Telephone Company

Comment: Significant portions of the proposed funded service area (PFSA) in the above Application do not satisfy the BIP or BTOP definitions of "unserved" or "underserved," and thus, should not be eligible to receive BIP or BTOP funding. Armstrong Telephone provides broadband service at speeds of 3MBPS or greater throughout the portions of Applicant's PFSA mapped in this response. (Advertisement uploaded). Armstrong's high speed broadband network passes more than 50%, and its high speed broadband exceeds 40%, of its households within the areas of Applicant's PFSA mapped herein. Given the presence of other broadband service providers in neighboring towns, it is reasonable to conclude that Applicant has failed to meet the required showings for its entire PFSA, and its application should be denied. At a minimum, Applicant has failed to meet the required showing in the portions of its PFSA served by Armstrong, and therefore, its Application should be denied with respect to the areas mapped herein.

-----**Service Area:** Washington County, PA Span

Submitter: Windstream

Comment: Windstream's data strongly suggest that the proposed funded service area likely does not qualify as an underserved area. Windstream offers facilities-based, terrestrial broadband service (meeting the definition set forth in the Notice of Funds Availability) to some of the households in the proposed funded service area, and such households can readily subscribe to Windstream's broadband service upon request. Windstream also has reason to believe that competitive broadband offerings are available in exchanges overlapping the proposed funded service area. Given this information, agency officials should further investigate existing broadband offerings within the proposed funded service area, so that officials can be sure that the area, in fact, qualifies as underserved.

Windstream is a communications and entertainment company with more than 1 million broadband customers in 16 states. Investing more than \$200 million in broadband deployment over the last several years, Windstream now offers approximately 89% of its 3 million voice customers access to quality and affordable broadband service.

The agencies define an "underserved area" as follows: "Underserved area means a proposed funded service area, composed of one or more contiguous census blocks meeting certain criteria that measure the availability of broadband service and the level of advertised broadband speeds. These criteria conform to the two distinct components of the Broadband Infrastructure category of eligible projects- Last Mile and Middle Mile. Specifically, a proposed funded service area may qualify as underserved for

last mile projects if at least one of the following factors is met, though the presumption will be that more than one factor is present: 1. No more than 50 percent of the households in the proposed funded service area have access to facilities-based, terrestrial broadband service at greater than the minimum broadband transmission speed (set forth in the definition of broadband above); 2. No fixed or mobile broadband service provider advertises broadband transmission speeds of at least three megabits per second (“mbps”) downstream in the proposed funded service area; or 3. The rate of broadband subscribership for the proposed funded service area is 40 percent of households or less. A proposed funded service area may qualify as underserved for Middle Mile projects if one interconnection point terminates in a proposed funded service area that qualifies as unserved or underserved for Last Mile projects.”

-----**Service Area:** Upshur County, WV Span

Submitter: West Virginia PCS Alliance LC dba NTELOS

Comment: NTELOS herein provides information on its existing broadband services within Applicant’s proposed service area to be funded.

Submitter: Suddenlink Communications

Comment: This response conclusively demonstrates that Suddenlink and its competitors already offer robust broadband service within the mapped area of the applicant’s proposed funded service area and that this mapped area is neither unserved nor underserved. Additional information is provided in the uploaded document, including (1) sample marketing material; (2) a guide on how to read the data we entered in the “Existing Broadband Subscribers” section of this response; (3) a summary of the vendor and methodology used for estimating competitive-service subscribers in the mapped area; (4) Suddenlink contact information, should one or more federal agencies have questions or require additional information; and (5) a summary of concerns with the response process and the limitations that process has placed on our ability to provide NTIA/RUS with relevant, timely data.

-----**Service Area:** Greene County, PA Span

Submitter: Windstream

Comment: Windstream's data strongly suggest that the proposed funded service area likely does not qualify as an underserved area. Windstream offers facilities-based, terrestrial broadband service (meeting the definition set forth in the Notice of Funds Availability) to some of the households in the proposed funded service area, and such households can readily subscribe to Windstream's broadband service upon request. Windstream also has reason to believe that competitive broadband offerings are available in exchanges overlapping the proposed funded service area. Given this information, agency officials should further investigate existing broadband offerings within the proposed funded service area, so that officials can be sure that the area, in fact, qualifies as underserved.

Windstream is a communications and entertainment company with more than 1 million broadband customers in 16 states. Investing more than \$200 million in broadband deployment over the last several years, Windstream now offers approximately 89% of its 3 million voice customers access to quality and affordable broadband service.

The agencies define an "underserved area" as follows: "Underserved area means a proposed funded service area, composed of one or more contiguous census blocks meeting certain criteria that measure the availability of broadband service and the level of advertised broadband speeds. These criteria conform to the two distinct components of the Broadband Infrastructure category of eligible projects- Last Mile and Middle Mile. Specifically, a proposed funded service area may qualify as underserved for last mile projects if at least one of the following factors is met, though the presumption will be that more than one factor is present: 1. No more than 50 percent of the households in the proposed funded service area have access to facilities-based, terrestrial broadband service at greater than the minimum broadband transmission speed (set forth in the definition of broadband above); 2.
