Applicant Name: Cellular Network Partnerships

Public Notice Submissions

-----**Service Area:** CNP Kansas RGN 2

Submitter: KanOkla Networks

Comment: KanOkla Networks has been providing our customers the best in telecommunications/data technology for almost 60 years. We are the leader in our service areas for rolling out new and innovative services to our subscribers. We currently offer broadband service, at speeds up to 6 Mbps, to 100% of our current and potential customers. KanOkla is in the midst of installing Fiber To The Home (FTTH) to all of our exchange areas, bringing the capability of 100 Mbps to all homes and businesses throughout our areas. This project, with its wealth of bandwidth for our subscribers, will position our communities for the future.
