

## Broadband USA Applications Database

**Applicant Name:** City of Waupaca, WI

---

### Public Notice Submissions

---

-----**Service Area:** WOL.net Broadband Expansion Project

**Submitter:** AT&T

**Comment:** AT&T is providing data about its wireline and mobile broadband footprint to assist in determining whether the applicant's proposed service area, which may be part of a larger application and project, satisfies the unserved and underserved eligibility requirements.

Additional information regarding other broadband service providers' currently operating in the service area may be needed in order to make a reasonable analysis or a conclusive determination.

**Submitter:** Nsighttel Wireless, LLC (dba "Cellcom")

**Comment:** Cellcom makes available access to facilities based wireless broadband service at greater than the minimum broadband transmission speed as described in NOFA to more than 50% of the households in the existing service area mapped below. The map confirms that Cellcom's existing service area overlaps with the proposed funded service area, WOL.net Broadband Expansion Project of City of Waupaca, WI.

**Submitter:** Charter Communications

**Comment:** Charter Communications ('Charter'), a broadband service provider, has invested capital to provide a full range of Broadband services, including High Speed Internet services, in this service area. The applicant's request in the proposed under-served and un-served service area would create an overlap in Charter's service area. Charter's response includes the necessary information to validate the overlapping condition as a result of this applicant's request.
