

## Broadband USA Applications Database

**Applicant Name:** Adirondack Area Network, Inc

---

### Public Notice Submissions

---

-----**Service Area:** Elizabethtown

**Submitter:** Charter Communications

**Comment:** Charter Communications ('Charter'), a broadband service provider, has invested capital to provide a full range of Broadband services, including High Speed Internet services, in this service area. The applicant's request in the proposed un-served service area would create an overlap in Charter's service area. Charter's response includes the necessary information to validate the overlapping condition as a result of this applicant's request.

-----**Service Area:** Franklin Falls, Vermontville, Loon Lke, Onchiota

**Submitter:** Time Warner Cable

**Comment:** As shown in the attached map and exhibit, TWC currently provides broadband Internet access service in the Proposed Funded Service Area. In addition, we advertise service of speeds above 3 Mbps throughout this service area. We pass over 50% of households, and either (1) have actual broadband subscribership of over 40% of the households in these census blocks or (2) the combined broadband subscribership of the wireline broadband providers (including TWC) in these census blocks is reasonably likely to exceed 40%. Therefore, that portion of the proposed funded service area that overlaps Respondent's service area reflected in this response is neither "unserved" or "underserved."

-----**Service Area:** Cranberry Lake

**Submitter:** COMP DIRECT USA

**Comment:** We currently have a grant that was approved with WavHost and the NYS Library System through NYS and is in Albany awaiting the final signature. As soon as this is signed we are beginning installation of equipment and will deploy our network as it has been designed. We are going to start advertising 3 meg speed right away. As we have the capability to deliver up to 300 Meg at any one fixed location. We are going to start advertising 3 Meg speeds in Star Lake next month.

-----**Service Area:** Hague

**Submitter:** Time Warner Cable

**Comment:** As shown in the attached map and exhibit, TWC currently provides broadband Internet access service in the Proposed Funded Service Area. In addition, we advertise service of speeds above 3 Mbps throughout this service area. We pass over 50% of households, and either (1) have actual broadband subscribership of over 40% of the households in these census blocks or (2) the combined broadband subscribership of the wireline broadband providers (including TWC) in these census blocks is reasonably likely to exceed 40%. Therefore, that portion of the proposed funded service area that overlaps Respondent's service area reflected in this response is neither "unserved" or "underserved."

-----**Service Area:** Star Lake

**Submitter:** COMP DIRECT USA

**Comment:** We currently have service in this area and have service capable of providing 3 meg to any subscriber. But we do not advertise it as most customers of ours don't ask for it or have a real need for those speeds. We don't believe that you should fund a competitor that could hurt our business. If that is so we believe funding should be given to us to stay competitive as we already provide service to the residents and businesses of this community.
