

Broadband USA Applications Database

Applicant Name: DigitalBridge Communications Corp.

Public Notice Submissions

-----**Service Area:** Bear Lake County ID

Submitter: Direct Communications Cable

Comment: Direct Communications Cable(DCC) is capable of providing broadband at minimum speeds of at least to 768kbps downstream and 200kbps upstream to Southeast Idaho customers in the counties and towns it provides broadband services. DCC is also capable of providing higher speeds of broadband up to 6mbps download and 1mbps upload in certain service areas. It appears that DigitalBridge Communications application overlaps the company's area of service that includes the community of Montpelier. DCC is capable of providing Montpelier customers with cable and wireless broadband with speeds up to 6mbps downstream and 1mbps upstream and believes that this area of service is neither unserved or underserved in broadband services.

Submitter: Qwest

Comment: As authorized by the BIP and BTOP Notice of Funds Availability and the Public Notice associated with the publication of BIP and BTOP broadband infrastructure project funding applications found on the BroadbandUSA.gov website, Qwest responds with broadband service data to the application of DigitalBridge Communications Corp for funding for an area represented as “underserved” that is located, in whole or in part, in Qwest’s broadband service area.
