-----**Service Area:** DBC Tippah

Submitter: Ripley Video Cable Company, Inc.

Comment: 10-21-09

My name is Leon M. Bailey, Jr, and I am the independent owner/operator of Ripley Video Cable Co., Inc. in Ripley, Tippah County, Mississippi 38663. We began operation in 1969 and serve Ripley, Blue Mountain, Falkner and Pine Grove all small towns in Tippah County. I have been offering high speed internet service since 2003 and VOIP service since 2007. We currently have 1727 high speed customers & 811 VOIP customers. Our telephony provider for VOIP is Dixie-Net Inc. A small CLEC that is partially funded from federal RUS loan MS1302. We also have AT&T in our service area. These customers are not unserved, underserved or unhappy and I don't see any possible benefit to anyone for this company in Virginia to enter our market.

Respectfully submitted,

Leon M. Bailey, Jr.

Submitter: Dixie-Net Fiber

Comment: Dixie-Net Fiber already offers 3 MB wireless and wireline broadband service in the areas on this application. RUS has already funded this area through its loan to Dixie-Net Fiber. Addition of another competitor into this market will harm an existing RUS borrower.
