

## Broadband USA Applications Database

**Applicant Name:** DigitalBridge Communications Corp.

---

### Public Notice Submissions

---

-----**Service Area:** DBC Scott, MS 2

**Submitter:** MetroCast Communications of Mississippi, LLC

**Comment:** MetroCast Communications of Mississippi, LLC offers broadband service to 100% of the applicant's proposed service area. MetroCast offers residential broadband transmission speeds in applicant's proposed service area up to 2Mbps downstream and 384Kbps upstream, with MetroCast's most highly-subscribed broadband service having a transmission speed of 2.0Mbps downstream and 384kbps upstream. MetroCast's business broadband service offerings start at 3Mbps downstream and 256kbps upstream. Over 1% of the households and businesses within the applicant's proposed service area currently subscribe to MetroCast broadband services. MetroCast is aware of other providers of high speed broadband service in applicant's proposed service area, including AT&T. According to an FCC report (<http://www.fcc.gov/wcb/iatd/comp.html>), as of June 30, 2008, 11 other companies reported providing high-speed service to this service area.

Based on the information provided above, applicant's proposed service area certainly does not meet the definition of "unserved" or "underserved" as those two terms are defined in the NTIA/RUS NOFA.

MetroCast has invested several million dollars of private capital to build an advanced fiber optic network to provide broadband services to the City of Morton and other areas of Scott County which encompasses a material portion of the applicant's proposed service area. Further details regarding the broadband services MetroCast provides in applicant's proposed service area are provided below.

-----**Service Area:** DBC Scott, MS 1

**Submitter:** MetroCast Communications of Mississippi, LLC

**Comment:** MetroCast Communications of Mississippi, LLC offers broadband service to 100% of the applicant's proposed service area. MetroCast offers residential broadband transmission speeds in applicant's proposed service area up to 10Mbps downstream and 1Mbps upstream, with MetroCast's most highly-subscribed broadband service having a transmission speed of 7.0Mbps downstream and 512kbps upstream. MetroCast's business broadband service offerings start at 3Mbps downstream and 512kbps upstream, with advertised offerings of up to 15Mbps downstream and 3Mbps upstream. Higher business speeds are available with customized service options including direct fiber connections. Over 3% of the households and businesses within the applicant's proposed service area currently subscribe to MetroCast broadband services.

MetroCast is aware of other providers of high speed broadband service in applicant's proposed service area, including AT&T. According to an FCC report <http://www.fcc.gov/wcb/iatd/comp.html>), as of June 30, 2008, 7 other companies reported providing high-speed service to this service area. Based on the information provided above, applicant's proposed service area certainly does not meet the definition of "unserved" or "underserved" as those two terms are defined in the NTIA/RUS NOFA.

MetroCast has invested millions of dollars of private capital to build advanced fiber optic networks to provide broadband services in the communities it serves, including the City of Forest and other areas of Scott County which encompasses a material portion of the applicant's proposed service area. Further details regarding the broadband services MetroCast provides in applicant's proposed service area are provided below.
