

Broadband USA Applications Database

Applicant Name: The University of Texas at Austin

Public Notice Submissions

-----**Service Area:** La Grange

Submitter: Colorado Valley Communications, Inc.

Comment: Colorado Valley Communications, Inc. (CVC) currently makes wireless broadband service available in the area indicated. CVC is prepared to expand services beyond the current service area based upon customer demand and economic feasibility. CVC currently competes with 2 major providers within this application area – one a provider of DSL service and the other a provider of cable modem service - in providing broadband access. This area does not meet the BIP/BTOP definition of unserved/underserved for last mile service.

-----**Service Area:** Weimar

Submitter: Colorado Valley Communications, Inc.

Comment: Colorado Valley Communications, Inc. (CVC) currently makes wireless broadband service available in the area indicated. CVC is prepared to expand services beyond the current service area based upon customer demand and economic feasibility. CVC currently competes with 2 major providers within this application area – one a provider of DSL service and the other a provider of cable modem service - in providing broadband access. This area does not meet the BIP/BTOP definition of unserved/underserved for last mile service.

Submitter: Internet America, Inc.

Comment: Internet America currently provides access to high-speed Broadband Internet service to this Applicant's proposed service area. As detailed in this response the Company believes the area should be re-categorized as served.

-----**Service Area:** Schulenburg

Submitter: Colorado Valley Communications, Inc.

Comment: Internet America currently provides access to high-speed Broadband Internet service to this Applicant's proposed service area. As detailed in this response the Company believes the area should be re-categorized as served.

-----**Service Area:** Bastrop

Submitter: Time Warner Cable Inc

Comment: As shown in the attached map and exhibit, TWC currently provides broadband Internet access service in the Proposed Funded Service Area. In addition, we advertise service of speeds above 3 Mbps throughout this service area. We pass over 50% of households, and either (1) have actual broadband subscribership of over 40% of the households in these census blocks or (2) the combined broadband subscribership of the wireline broadband providers (including TWC) in these census blocks is reasonably likely to exceed 40%. Therefore, that portion of the proposed funded service area that overlaps Respondent's service area reflected in this response is neither "unserved" or "underserved."
