Subject: ICANN issue

---

I support the letter by Peter Dengate Thrush, published at  
<http://icann.org/correspondence/dengate-thrush-to-sene-09jan08.pdf>

<>and I believe ICANN has met fully its obligations and responsibilities. The JPA can now be completed.

I also want to mention the good work we have had with ICANN in the face of their representative for Azerbaijan - Veni Markovski, who I first met in 2000 during the INET Stockholm meeting, and recently - at the Los Angeles ICANN meeting. <>

We are also enthusiastic to host the 2010 Internet Governance Forum.

We are looking forward to work with an independent ICANN.

<>Best regards,

Faik Farmanov.
