Hello,

I just read the article in Current Times about the internet.

I am very interested in the article because our Internet service is very slow. Less than 1 MB per sec. We have CenturyLink and that is the fastest they can provide to this area.

We live between Forsyth and Chadwick in Christian County.

We also have a Verizon Jet pack which is also very slow. We upgraded to the new jet pack which did not help.

I work full-time from home and need to use the Internet the entire time. I have been struggling with this problem for years.

Who can I reach out to in order to find out if there are other options ?

Thank you,

Donna

P.S. I am sending this via cellphone. Our Internet has been down ...AGAIN
