Dear Sirs,

Huntington Ophthalmology, PC (Dina Blom, M.D.) is requesting an exclusion from the "Timely Electronic Access to Patients" core measure. We are a small, independent ophthalmologist practice with a major elderly patient population that **that do not use, own or have access** to a computer and/or email.

The practice satisfied Stage 1 but is unable to satisfy Stage 2 because of this requirement. It is unreasonable that we receive penalties for circumstances that are totally beyond our control.

Sincerely,

Dina Blom, M.D.
