Subject: Broadband is non-existent here still...

When in 2009 Governor Jay Nixon told all of us Missourians that we were going to get high-speed Internet I was ecstatic. Now i hear 99 percent of all Missourians have it. Really? Who are these people? Not my neighbors. My address is [REDACTED], Camdenton, Missouri 65020. I'm on Southwest Electric Cooperative's electric grid. I want your help. I want broadband. PLEASE HELP ME!!!!
