Subject: Request for Comments on Privacy, Transparency, and Accountability Regarding Commercial and Private Use of Unmanned Aircraft Systems
Date: Wednesday, March 11, 2015 4:50:54 PM

To whom it may concern;

I would like to voice to the opposition of allowing the use of drone aircraft over residence. Just as there are regulations for fixed wing aircraft minimum altitude over populated areas, so should there be for drone aircraft, with this addition. Because of their ability to hover over a location and the their use as a platform for high definition surveillance, they should be banned from being able to over public areas. Only in the instance of law enforcement
