Room 4701
Washington, DC 20230

Docket No. 100603240-0240-01

Availability of Testing and Evaluation
Report and Intent To Proceed With the
Final Stages of Domain Name System
Security Extensions Implementation in
The Authoritative Root Zone

Dear Ms. Alexander:

Neustar supports and applauds the work being done by the NTIA, NIST, VeriSign, and ICANN to sign the root. We recognize this as an important step towards a more secure DNS. Neustar will be submitting our relevant key material for both .US, already fully DNSSEC-enabled, and .BIZ, which will be fully enabled at about the same time as the root, on July 15, 2010.

Sincerely,

A handwritten signature in blue ink that reads "Terri G. Claffey". The signature is written in a cursive style.

Terri G. Claffey
Senior Director
Government Relations and Public Policy
