

Agenda

**U.S. Department of Commerce
National Telecommunications and Information Administration
November 6, 2014 Privacy Multistakeholder Meeting
Facial Recognition Technology**

**1:00 p.m. – 5:00 p.m. ET
American Institute of Architects, 1735 New York Ave. NW, Washington, DC**

Meeting Goals: 1) Discuss NIST Presentation; 2) Discuss Issues Identified by Stakeholders; and 3) Identify Goals for Stakeholder Work in Advance of December 15, 2014 Meeting

- 1:00 p.m. Welcome (John Verdi, Director of Privacy Initiatives, NTIA/OPAD)
- 1:15 p.m. Presentation Regarding Accuracy of Age Inferences Derived from Face Analysis and Persistence of Facial Templates: Patrick Grother (Computer Scientist – Biometric Standards and Testing, National Institute of Standards and Technology (NIST))
- Presentation (15 minutes)
 - Discussion (20 minutes)
 - Background:
 - Mei Ngan and Patrick Grother, [Face Recognition Vendor Test \(FRVT\): Performance of Automated Age Estimation Algorithms, NIST Interagency Report 7995](#) (pdf) (March 20, 2014)
 - Mei Ngan and Patrick Grother, [Face Recognition Vendor Test \(FRVT\): Performance of Face Identification Algorithms, NIST Interagency Report 8009](#), Section 5.5 (pdf) (May 26, 2014)
- 1:50 p.m. Facilitated Discussion of [Risks/Issues that Might be Addressed by a Code of Conduct for Commercial Facial Recognition Technology](#) and Relevant [Proposed Stakeholder-Drafted Text](#):
- Stakeholder Issue No. 11. How should the code address storage of Facial Recognition Data?
 - Stakeholder Issue No. 11A. How should the code address transmission of Facial Recognition Data?
- 3:00 p.m. Break (15 minutes)

3:15 p.m. Facilitated Discussion of [Risks/Issues that Might be Addressed by a Code of Conduct for Commercial Facial Recognition Technology](#) and Relevant [Proposed Stakeholder-Drafted Text](#):

- Stakeholder Issue No. 12. Risk: Security: commercial facial recognition data could be subject to data breaches that result in sensitive biometrics being revealed to unauthorized entities; insufficient security procedures could result in biometric identity theft.
- Stakeholder Issue No. 16. Risk/Issue: Withdrawal of Facial Template from a database?
- Stakeholder Issue No. 2: What obligations should the code impose when Facial Detection occurs but no Facial Template is created and no individual is enrolled? (Continued Discussion from July 24, 2014 Meeting)

4:30 p.m. Facilitated Discussion Regarding Next Steps

- Identify Stakeholder Work in Advance of the December 15, 2014 Meeting

4:50 p.m. Summary of Next Steps and Adjourn (John Verdi)
