**DRAFT INTER-AMERICAN PROPOSAL FOR WRC-19
AGENDA ITEM 7, ISSUE D**

(Item on the Agenda: 3.1 (SGT 3.3))

(Document submitted by the Coordinator)

SGT3 – Satellite services

Coordinator: Brandon MITCHELL – USA

Alternate Coordinator: Juan MASCOTRA – ARG; Chantal BEAUMIER - CAN

Rapporteur Agenda Item: Michelle CALDEIRA

Alternate Rapporteur Agenda Item: Ángeles GALLEGO – MEX; [Carolina DAZA – COL]

Source Document: 4403/17

Agenda item 7: *to consider possible changes, and other options, in response to Resolution 86 (Rev. Marrakesh, 2002) of the Plenipotentiary Conference, an advance publication, coordination, notification and recording procedures for frequency assignments pertaining to satellite networks, in accordance with Resolution 86 (Rev.WRC-07) to facilitate rational, efficient, and economical use of radio frequencies and any associated orbits, including the geostationary-satellite orbit*

Issue D – Identification of those specific satellite networks and systems with which coordination needs to be effected under RR Nos. 9.12, 9.12A and 9.13

Formatted: Highlight

BACKGROUND: The 2012 World Radiocommunication Conference (WRC-12) decided to modify RR No. 9.36.2 to Article 9 of the Radio Regulations. Since then, the Bureau publishes a “definitive list” of those networks, systems and earth stations with which coordination under RR Nos. 9.7, 9.7A and 9.7B needs to be effected upon receipt of coordination request for a satellite network or system. Such a list is published in the relevant Special Section of the BR International Frequency Information Circular (BR IFIC). However, in the cases of coordination under RR Nos. 9.12, 9.12A and 9.13, the Bureau does not publish a list of the potentially affected satellite networks or systems to complement the list of administrations potentially affected by incoming satellite networks or systems that they do provide.

In response to this issue, the ITU-R developed [Preliminary draft] CPM report with three methods: Method D1 for no change to the Radio Regulations, Method D2 for the publication of a definitive list of satellite networks and systems and method D3 for the publication of a list of potentially affected satellite networks or systems for information only. In this contribution, it is proposed to implement the modifications to the Radio Regulations in accordance with Method D2.

PRELIMINARY DRAFT INTER-AMERICAN PROPOSALS:

Formatted: Highlight

ARTICLE 9

Procedure for effecting coordination with or obtaining agreement of other administrations^{1, 2, 3, 4, 5, 6, 7, 8, 9} (WRC-15)

Section II – Procedure for effecting coordination^{12, 13}

Sub-Section IIA – Requirement and request for coordination

MOD **B, CAN/7(D)/1**

²⁰**9.36.1** In the case of coordination under Nos. 9.12, 9.12A and 9.13, as appropriate, the Bureau shall also identify the satellite networks or systems with which coordination may need to be effected. The list of administrations identified by the Bureau under Nos. 9.11 to 9.14 and 9.21, and the list of satellite networks or systems identified by the Bureau under Nos. 9.12, 9.12A and 9.13 are ~~is~~ only for information purposes, to help administrations comply with this procedure.^(WRC-19)

Reasons: This modification is required in order to have the list of potentially affected satellite networks or systems published in addition to the list of administrations.

Sub-Section IIC – Action upon a request for coordination

MOD **B**, CAN/7(D)/2

9.52C For coordination requests under Nos. **9.11** to **9.14** and **9.21**, an administration not responding under No. **9.52** within the same four-month period shall be regarded as unaffected and, in the cases of Nos. **9.11** to **9.14**, the provisions of Nos. **9.48** and **9.49** shall apply. Furthermore, for coordination under Nos. **9.12**, **9.12A** and **9.13**, any satellite networks or systems identified under No. **9.36.1** but not referred to in the response provided by administrations under No. **9.52** within the same four-month period shall be regarded as unaffected and the provisions of Nos. **9.48** and **9.49** shall also apply. (WRC-19)

Reasons: This modification is required to indicate the consequence for not identifying satellite networks or systems in the response provided under No. **9.52**.

MOD **B**, CAN/7(D)/4

9.53A Upon expiry of the deadline for comments in respect of a coordination request under Nos. **9.11** to **9.14** and **9.21**, the Bureau shall, according to its records, publish a Special Section, indicating the list of administrations having submitted their disagreement and the list of satellite networks or systems upon which their disagreement is based, as appropriate, or other comments within the regulatory deadline. (WRC-192000)

Reasons: This modification is required in order to have the definitive list of affected satellite networks or systems published in addition to the list of administrations.
