<b>11a. Describe your progress meeting each major activity/milestone approved in the Baseline Report for this project; any challenges or obstacles encountered and mitigation strategies you have employed; planned major activities for the next quarter; and any additional project milestones or information.</b> This quarter the following has been accomplished: Participated in the quarterly SPOC conference call as well as the conference call with our federal program manager. Additionally the Public Safety Broadband Working Group met to focus on outreach activities and also the initial data collection initiative. Two major events in which outreach was conducted included the Connecticut Conference of Municipalities Emergency Management Symposium, and the Statewide Emergency Medical Services Conference. Outreach sessions were held at three of the five DEMHS region steering committee meetings, reaching approximately 45 emergency management practitioners. The committee members also participated in the SLIGP State Consultation visit on May 27, 2015. The SPOC participated in several conference calls and on-line projects with the National Public Safety Telecommunications Council Deployment Systems Working Group which directly related to First Net initiatives. The SPOC and a Public Safety Broadband Working Group Member attended the PSCR meeting June 2015 in San Diego, CA. The Public Safety Broadband Initiative continues to be a standing agenda item at the State Interoperable Communications Committee and the E-911 Commission meetings. PHASE 2 Activities: At the various outreach sessions staff provided the attendees with information regarding what was needed for data collection					

elements and directed them to either a hard copy form to complete or a link to an electronic data collection tool. Groups such as the Connecticut Chief's Police Chiefs Association and the State Fire Plan were tasked with data collection from their membership. Additionally staff met with major state agencies including, Department of Public Health and Department of Energy and Environmental Protection, with continued outreach regarding the uses of the PSBB network and also the data collection needed. During July and August 2015 further efforts will be made to obtain data for coverage, users and their operational areas, capacity planning, and current providers/procurement.

11b. If the project team anticipates requesting any changes to the approved Baseline Report in the next quarter, describe those below. Note that any substantive changes to the Baseline Report must be approved by the Department of Commerce before implementation.

No significant changes are planned.

11c. Provide any other information that would be useful to NTIA as it assesses this project's progress.

None at this time.

11d. Describe any success stories or best practices you have identified. Please be as specific as possible.
