Repeal of Regulations Governing the Public Telecommunications Facilities Program

AGENCY: National Telecommunications and Information Administration, U.S. Department of Commerce.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: The National Telecommunications and Information Administration (NTIA) issues this NPRM to propose the repeal of its regulations governing the Public Telecommunications Facilities Program (PTFP). The PTFP is a competitive grant program that helps public broadcasting stations, state and local governments, Indian Tribes, and nonprofit organizations to construct public television and radio stations. As of Fiscal Year 2011, no funds have been available for PTFP grants. NTIA is proposing to repeal its regulations governing the PTFP because the regulations are unnecessary and obsolete.

PTFP as “outdated, ineffective, or duplicative.” Accordingly, Congress appropriated no funds for PTFP in Fiscal Year 2011. As a result of the lack of funding, NTIA began the orderly shutdown of the PTFP thereafter. NTIA has not processed applications or awarded any additional grants under the PTFP since that time. NTIA has continued to monitor PTFP grants it awarded before Fiscal Year 2011 to ensure taxpayer funds have been utilized in the most responsible and efficient manner.

III. Repeal of Regulations for the Public Telecommunications Facilities Program

Congress authorized NTIA to establish regulations “as may be necessary to carry out” the PTFP. Due to the lack of funding for seven years and no prospective funding for the PTFP, the regulations governing the PTFP are unnecessary and obsolete. If these regulations are not removed, it may suggest that the program is still active and may cause confusion regarding the status of the program. Accordingly, NTIA issues this NPRM to propose the repeal of its regulations governing the PTFP.

Executive Order 12866

The proposed repeal of the regulations governing the PTFP is not a significant regulatory action as defined by Executive Order 12866.

Executive Order 13132

The proposed repeal of the regulations governing the PTFP does not contain policies with federalism implications sufficient to warrant preparation of a federalism assessment under Executive Order 13132.

Regulatory Flexibility Act

The proposed repeal of regulations governing the PTFP will not have a significant economic impact on a substantial number of small entities. NTIA estimates that the proposed repeal of the regulations governing PTFP will impact no small entities. The proposed repeal of the regulations governing PTFP does not include reporting, recordkeeping, or other compliance requirements; therefore, no small entities will be subject to such requirements. Thus, the Chief Counsel for Advocacy of the Small Business Administration in accordance with section 605(b) of the Regulatory Flexibility Act (5 U.S.C. 605(b)).

Paperwork Reduction Act

The proposed repeal of the regulations governing the PTFP contains no collections of information. Therefore, clearance by the Office of Management and Budget (OMB) under the Paperwork Reduction Act of 1995 is not required. In 2013, OMB approved NTIA’s requests to discontinue the following collections associated with the regulations governing the PTFP: OMB Control Numbers 0660–0003, 0660–0001, and 0605–0001; consequently, NTIA has no active collections associated with its regulations governing the PTFP.
