V. Congressional Review Act (CRA)

This rule is not a “major rule” as defined by 5 U.S.C. 804(2).

AGENCY: National Telecommunications and Information Administration, U.S. Department of Commerce.

ACTION: Final rule.

SUMMARY: The National Telecommunications and Information Administration (NTIA) hereby makes certain changes to its regulations, which relate to the public availability of the Manual of Regulations and Procedures for Federal Radio Frequency Management (NTIA Manual). Specifically, NTIA updates the version of the Manual of Regulations and Procedures for Federal Radio Frequency Management with which federal agencies must comply when requesting frequency assignments for the use of the radio frequency spectrum. In particular, this rule amends section 300.1(b) of title 47 of the Code of Federal Regulations to specify the version of the NTIA Manual with which federal agencies must comply when requesting frequency assignments for use of the radio frequency spectrum. Upon the effective date of this rule, federal agencies must comply with the requirements set forth in the 2008 edition of the NTIA Manual, as revised through May 2012.

The NTIA Manual is scheduled for revision in January, May, and September of each year and is submitted to the Director of the Federal Register for Incorporation by Reference approval. The Director of the Federal Register approved this incorporation by reference in accordance with 5 U.S.C. 552(a) and part 51 of title 1 of the Code of Federal Regulations. SUPPLEMENTARY INFORMATION:

Background

NTIA authorizes the U.S. Government’s use of the radio frequency spectrum. 47 U.S.C. 902(b)(2)(A). As part of this authority, NTIA developed the NTIA Manual to provide further guidance to applicable federal agencies. The NTIA Manual is the compilation of policies and procedures that govern the use of the radio frequency spectrum by the U.S. Government. Federal government agencies are required to follow these policies and procedures in the use of the spectrum.

Part 300 of title 47 of the Code of Federal Regulations provides information about the process by which NTIA regularly revises the NTIA Manual and makes public this document and all revisions. Federal agencies are required to comply with the specifications in the NTIA Manual when requesting frequency assignments for use of the radio frequency spectrum. See 47 U.S.C. 901 et seq., Executive Order 12046 (March 27, 1978), 43 FR 13349, 3 CFR 1978 Comp. at 158.

This rule updates section 300.1(b) of title 47 of the Code of Federal Regulations to specify the version of the NTIA Manual with which federal agencies must comply when requesting frequency assignments for the use of the radio frequency spectrum. In particular, this rule amends section 300.1(b) by replacing “May 2011” with “May 2012.” See Revision to the Manual of Regulations and Procedures for Federal Radio Frequency Management, 76 FR 56984, 56984–85 (Sept. 15, 2011) (revising the Manual through May 2011). Upon the effective date of this rule, federal agencies must comply with the requirements set forth in the 2008 edition of the NTIA Manual, as revised through May 2012.

The NTIA Manual is scheduled for revision in January, May, and September of each year and is submitted to the Director of the Federal Register for Incorporation by Reference approval. The Director of the Federal Register approved this incorporation by reference in accordance with 5 U.S.C. 552(a) and part 51 of title 1 of the Code of Federal Regulations. The Director of the Federal Register approved this incorporation by reference in accordance with 5 U.S.C. 552(a) and part 51 of title 1 of the Code of Federal Regulations. Paperwork Reduction Act

This action does not contain collection of information requirements subject to the Paperwork Reduction Act (PRA). Notwithstanding any other provision of law, no person is required to respond to, nor shall any person be subject to a penalty for failure to comply with, a collection of information subject to the PRA, unless that collection displays a currently valid OMB Control Number.

Executive Order 12866

This rule has been determined to be not significant for purposes of Executive Order 12866.

Administrative Procedure Act/Regulatory Flexibility Act

NTIA finds good cause under 5 U.S.C. 553(b)(B) to waive prior notice and opportunity for public comment as it is unnecessary. This action amends the regulations to include the date of the most current version of the NTIA Manual. These changes do not impact the rights or obligations of the public. The NTIA Manual applies only to federal agencies. Because these changes impact only federal agencies, NTIA finds it unnecessary to provide for the notice and comment requirements of 5 U.S.C. 553. NTIA also finds good cause under 5 U.S.C. 553(d)(3) to waive the 30-day delay in effectiveness for the reasons provided above. Because notice and opportunity for comment are not required pursuant to 5 U.S.C. 553 or any other law, the analytical requirements of the Regulatory Flexibility Act (5 U.S.C. 601 et seq.) are not applicable. Therefore, a regulatory flexibility analysis is not required and has not been prepared.

Congressional Review Act

The NTIA Manual provides for the policies and procedures for federal agencies’ use of the radio spectrum. The NTIA Manual and the changes thereto do not substantially affect the rights or obligations of the public. As a result, this notice is not a “rule” as defined by the Congressional Review Act, 5 U.S.C. 804(3)(C).

Executive Order 13132

This rule does not contain policies having federalism implications as that term is defined in E.O. 13132.

RIN 0648–XC388

Fisheries of the Caribbean, Gulf of Mexico, and South Atlantic; Reef Fish Fishery of the Gulf of Mexico; 2013 Commercial and Recreational Quotas for Red Snapper

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule.

SUMMARY: NMFS sets the 2013 commercial and recreational quotas for red snapper in the exclusive economic zone (EEZ) of the Gulf of Mexico (Gulf) through this temporary rule. NMFS has determined that the allowable biological catch (ABC) for red snapper in 2012 has been exceeded. Therefore, NMFS is maintaining the commercial and recreational quotas for red snapper in 2013 at the 2012 level. The intent of this action is to help achieve optimum yield (OY) for the Gulf red snapper resource without increasing the risk of red snapper experiencing overfishing.

DATES: This rule is effective January 1, 2013, through December 31, 2013, unless NMFS publishes a superseding document in the Federal Register.

FOR FURTHER INFORMATION CONTACT:

SUPPLEMENTARY INFORMATION: NMFS and the Council manage the Gulf reef fish fishery under the Fishery Management Plan for the Reef Fish Resources of the Gulf of Mexico (FMP). The Council prepared the FMP and NMFS implements the FMP through regulations at 50 CFR part 622 under the authority of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act).

On May 30, 2012, NMFS published a final rule (77 FR 31734), that in part, set the 2012 commercial quota at 4.121 million lb (1.931 million kg), round weight, and the 2012 recreational quota at 3.959 million lb (1.796 million kg), round weight. NMFS also set the 2013 commercial quota at 4.432 million lb (2.010 million kg), round weight, and the 2013 recreational quota at 4.258 million lb (1.931 million kg), round weight. However, the 2013 quota increases are contingent on the ABC not being exceeded in the 2012 fishing year.
