Social Media:
The @MIPSBB account is now up to 310 followers with 327 Tweets and 365 Following as of 6/30/2015

This has been a great tool for the MiPSB outreach team to provide information to our followers regarding outreach events and educational opportunities, program updates and activities, governance items and related news items and discussions. Additionally, this has been beneficial to our outreach team in tracking activities with other SLIGP teams.

Other Program Activities:
• Engaged CTS (Consolidate Telecom Services) to assist in the ongoing planning, education, outreach, and data collection activities
• Technical Advisory Team
  o Continued to work on Michigan’s data collection and analyzing results –
    • We received 124 responses back from 147 requests. The responses had a good geographical spread and both urban and rural participation.
    • Planned next steps and identified additional data needs to fulfill FirstNet requirements.
• Continue to collect information and enter contact information, outreach events and agency participation into Michigan User Engagement Database
• Continuing planning for FirstNet Consultation in September
  o Selected location for the event
  o Created DRAFT agenda outlining the Michigan Use Cases and presenters
  o Participate in INITIAL PLANNING Call for Initial Michigan Consultation
• Planning and prep for NTIA review in Mid-July
• Outreach and Education
  o Currently executing several facets of the Outreach and Education plan.
  o On the agenda for several conferences this summer and autumn, beginning to look into conferences/meetings for the coming winter.
11b. If the project team anticipates requesting any changes to the approved Baseline Report in the next quarter, describe those below. Note that any substantive changes to the Baseline Report must be approved by the Department of Commerce before implementation.

Michigan submitted revised budget documents on June 23, 2015. Corrects and modification are being made based on comments from NTIA.

11c. Provide any other information that would be useful to NTIA as it assesses this project's progress.
