11a. Describe your progress meeting each major activity/milestone approved in the Baseline Report for this project; any challenges or obstacles encountered and mitigation strategies you have employed; planned major activities for the next quarter; and any additional project milestones or information.					
<p>North Carolina has continued a varied outreach and education program to provide information on FirstNet during this past quarter. Though no substantial new information is known about the FirstNet project due to the progressing RFP process, FirstNetNC continues to staff informational booths at conventions and conferences in order to provide the opportunity to engage stakeholders in one on one conversations. The research analyst completed a research report, entitled "NC Coastal Counties: Census Data Limitations in Public Safety for Vacation Communities", during this quarter. This report presented issues associated with using census data as a methodology for level of response needed in coastal vacation communities. A second research report was initiated during this quarter. Video production concluded this quarter in an effort to provide better education and outreach of the efforts in our state. Planning and implementation of the FirstNet Education and Outreach Tech Expo began in this quarter. The Tech Expo will include TedTalk-style presentations about FirstNet related technology that will revolutionize public safety and emergency response. North Carolina sent one (1) person to participate in a Broadband conference this past quarter. The Statewide Interoperability Executive Committee (Governance) held a regular meeting in which FirstNetNC provided an update. Our office sponsored meeting between FirstNet leadership and the Governors' staff which included a site visit to Fayetteville to observe the only operating Band 14 Small Cell Pilot. Our office sponsored a CTT meeting that was attended by SPOC staff from NC, SC, TN, KY, and FirstNet. The CTT meeting was held at a fire station in Fayetteville and the attendees received background information on small cell technology. A total of 452 stakeholders were reached, two (2) staff members attended one (1) Governance meeting with FirstNetNC participation, and 11,547 materials were distributed including both digital and physical methods.</p>					
11b. If the project team anticipates requesting any changes to the approved Baseline Report in the next quarter, describe those below. Note that any substantive changes to the Baseline Report must be approved by the Department of Commerce before implementation.					
<p>Per North Carolina's Amendment #5, a revised SLIGP budget was submitted Q4 CY2015 and approved Q1 CY2016. Q1 CY2016 PPR utilized the approved budget. Amendment #6 was planned to be submitted during this quarter; however, we will submit it in Q4 CY16 in order to address proper fund categories and staff changes.</p>					

11c. Provide any other information that would be useful to NTIA as it assesses this project's progress.
 As per last quarter, little new information from FirstNet due to the release of RFP. We continue to seek additional Liaison staff for education and outreach efforts. We will add Liaison staff and ramp up our efforts once FirstNet has significant information for responders and decision makers (cost, coverage, capacity, etc.).

11d. Describe any success stories or best practices you have identified. Please be as specific as possible.
 The part time Outreach Liaison staff continues to be a significant asset for our program.

12. Personnel

12a. If the project is not fully staffed, describe how any lack of staffing may impact the project's time line and when the project will be fully staffed.
 The North Carolina Office continues to operate with limited staff. Never-the-less the Education and Outreach Mission continues. As discussed with NTIA, match efforts will continue to be counted for First Responder stakeholders attending FirstNetNC meetings. The FTE percentages below reflect the changes in staff time related to the new State fiscal year beginning July 1, 2016.

12b. Staffing Table - Please include all staff that have contributed time to the project. Please do not remove individuals from this table.

13b. Describe any challenges encountered with vendors and/or subrecipients.

Administrative support personnel was provided to our office through a subcontract with Temporary Solutions (State of NC temporary staffing agency). The administrative assistant left employment last quarter and there is a challenge in identifying a new candidate that possesses the knowledge and skill set with the limited amount of time of the grant. Therefore, administrative support functions were provided by NC DIT as in-kind match.
