11a. Describe your progress meeting each major activity/milestone approved in the Baseline Report for this project; any challenges or obstacles encountered and mitigation strategies you have employed; planned major activities for the next quarter; and any additional project milestones or information.

The NTIA SLIGP Funding has not been approved by the State of Nevada process; however the Interim Finance Committee will review our request on October 22, 2013. During this period of time no funds have been spent or allocated. A meeting was held by the State of Nevada Network (SONNet) Committee which is the governance structure (Nevada completed one (1) governance structure meeting) for public safety broadband. The body discussed the SLIGP grant, update on the Office of Emergency Communications mobile data, report on the 2013 public safety broadband stakeholders, governance and technical assistance workshop and the First Net and national governors association meeting.

11b. If the project team anticipates requesting any changes to the approved Baseline Report in the next quarter, describe those below. Note that any substantive changes to the Baseline Report must be approved by the Department of Commerce before implementation.

We project no major changes with the exception of requesting one position to be moved from personnel to contracts and combining the outreach costs with the program manager and adding outreach as a component. This will all be completed in a financial and program change request.

11c. Provide any other information that would be useful to NTIA as it assesses this project's progress.

The State of Nevada DPS NDEM received the grant award Aug 28, 2013 and requested the Nevada Interim Finance Committee review and approve the NTIA grant funds for expenditures. The anticipated approval date is October 22, 2013 and we expect to start spending funds as of November 1, 2013 or sooner

11d. Describe any success stories or best practices you have identified. Please be as specific as possible.

N/A

12. Personnel

12a. If the project is not fully staffed, describe how any lack of staffing may impact the project's time line and when the project will be fully staffed.

Project is not fully staffed with the 1.0 FTE, we will request a program change to change this position to a contract position as stated above however this has not been submitted therefore the position is listed as approved by NTIA

12b. Staffing Table

Job Title	FTE %	Project(s) Assigned	Change
	100%	Not assigned not hired

According to the Paperwork Reduction Act, as amended, no persons are required to respond to a collection of information unless it displays a currently valid OMB control number. Public reporting burden for this collection of information is estimated to average 10 hours per response for the application process, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding the burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to Michael Dame, Director, State and Local Implementation Grant Program, Office of Public Safety Communications, National Telecommunications and Information, U.S. Department of Commerce (DOC), 1401 Constitution Avenue, N.W., HCHB, Room 7324, Washington, D.C. 20230.
