11a. Describe your progress meeting each major activity/milestone approved in the Baseline Report for this project; any challenges or obstacles encountered and mitigation strategies you have employed; planned major activities for the next quarter; and any additional project milestones or information.

Milestone 11.1: This is the estimated total number of stakeholders met at regularly scheduled events and several more informal gatherings (3 OR Broadband Advisory Cncl meetings, OregonPrepared Emerg Mgmt workshop, 3 meetings of stakeholders in Central and Eastern OR, and a meeting with Assn of OR Counties). 11.2: Several staff attended the SPOC workshop in VA, a meeting of the tribes, and PSCR. 11.5 Regularly quarterly meeting of the SIEC Broadband Committee and the SIEC full committee (the governing bodies). 11.6: estimated number of materials produced and distributed at meetings, emails where matl was distributed, and website hits. 11.8, 11.9, 11.10, 11.11, 11.12: we are in the data collection stage for each of these milestone activities. Next quarter we will continue outreach efforts, attending conferences and conducting at least 6 more data collection workshops in the Willamette Valley, Coast and Southern Oregon.

11b. If the project team anticipates requesting any changes to the approved Baseline Report in the next quarter, describe those below. Note that any substantive changes to the Baseline Report must be approved by the Department of Commerce before implementation.

We will be submitting Phase 2 Modification package. We expect to aggressively collect data through the quarter, then expect to have Outreach, Data Collection, and Technical Review efforts conducted at an even pace in order to be able to continue activities for another 18 months with the same amount of funds we have now.

11c. Provide any other information that would be useful to NTIA as it assesses this project's progress.

The original SWIC/SPOC resigned this quarter and we are transitioning to a new one. We also transitioned 3 DAS staff at nearly 100% onto the project as FTE during this reporting quarter, but one resigned and will not be replaced.

11d. Describe any success stories or best practices you have identified. Please be as specific as possible.

Web-site (firstnetinoregon.org) is a great source for stakeholders to find out information about FirstNet and associated activities and it received over 4,000 hits this quarter. We are going directly to the Computer Aided Dispatch (CAD) vendors for the 9-1-1 data, which has been helpful. This has been coupled with a trip circuit to Central and Eastern Oregon, which is part of a larger trip circuit outreach/data gathering effort across Oregon this summer. We developed our own Coverage Objective mapping tool with a tutorial for to use in conjunction with these and other outreach and data collection efforts.

12. Personnel

12a. If the project is not fully staffed, describe how any lack of staffing may impact the project's time line and when the project will be fully staffed.

The project is now fully staffed.

12b. Staffing Table

Job Title	FTE%	Project (s) Assigned	Change
Statewide Interoperability Coordinator	60	SLIGP project coordination (SPOC)	FTE functioning at 60%
Performance manager	20	Consultant coordination	FTE functioning at 20%
Program Budget manager	5	Grant and finance management	FTE functioning at 5%
Project Coordinator	100	Project coordination	FTE functioning at 100%
