B. 1 SUPPLIES OR SERVICES AND PRICES/COSTS

SECTION B - SUPPLIES OR SERVICES AND PRICES/COSTS

This is a no cost, \$0.00 firm fixed-price contract.

B.2 COST/PRICE

The Contractor may not charge the United States Government to perform the requirements of this Contract. The Contractor may establish and collect fees from third parties provided the fee levels are approved by the Contracting Officer and are fair and reasonable. If fees are charged, the Contractor shall base any proposed fee structure on the cost of providing the specific service for which the fee is charged and the resources necessary to monitor the fee driven requirements. The Contractor must submit a copy of proposed fee structure, tracking methodology, and description of the collaboration efforts and process to the Contracting Officer.

B.3 PRE-AWARD SURVEY- FAR 9.106 AND 9.106-4(A)

At the discretion of the Contracting Officer, a site visit to the Offeror's facility (ies) may also be requested and conducted by the Department of Commerce (DOC) or its designee. The purpose of this visit will be to gather information relevant to the Offeror's responsibility and prospective capability to perform the requirements under any contract that may be awarded. The Contracting Officer will arrange such a visit at least seven (7) days in advance with the Offeror.

SECTION C
DESCRIPTION/SPECIFICATIONS/WORK STATEMENT

C. 1 DESCRIPTION/SPECS/STATEMENT OF WORK (SOW)

SECTION C – DESCRIPTION/SPECS/ STATEMENT OF WORK (SOW)

Statement of Work (SOW)

The Contractor shall furnish the necessary personnel, materials, equipment, services, and Facilities (except as otherwise specified) to perform the following Statement Work/Specifications.

C.1 BACKGROUND

C.1.1 The DOC's National Telecommunications and Information Administration (NTIA) is committed to preserving the stability and security of the Internet domain name system (DNS) and maintaining an Internet that is open for economic growth and innovation. One of the many ways that NTIA supports this commitment is through its role in supervising the administration of the contract for the operation of the United States country code top-level domain (usTLD or .us domain). The usTLD serves as a home for American business, individuals, and localities for the benefit of the nation's Internet community.

C.1.2 The usTLD has been managed under a series of contracts administered by the DOC since 2001. The current contract has been in place since 2007 and will expire December 31, 2013. The usTLD is composed of locality space and second-level registrations. The DOC intends to procure the services of a Contractor to manage, maintain, and operate the usTLD under NTIA's supervision, in accordance with Federal Acquisition Regulation (FAR) Part 12.

C.1.3 The usTLD currently contains approximately 1,774,753 registered domain names, which include both second level registrations and locality based domain names. Registrations in the locality space reflect the political geography of the United States based on two-letter state abbreviations and divided further into localities, including cities, counties, parishes, townships, or local names (e.g., Alexandria.va.us). In addition to geographical locality names, the usTLD also includes certain affinity names, for example, STATE, FED, K12, LIB, and NSN (Native Sovereign Nation). Locality and affinity names collectively compose the "locality space." Individuals, organizations, and state and local governments received delegations to provide registry and registration services in the locality space. As of February 2013, approximately 3,675 known "delegated managers" supported a widely-distributed hierarchy within the usTLD. Prior to DOC's supervision of the usTLD, locality space delegations occurred without adequate records or service and technical requirements. To continue improvements and maintain the reliability and viability of the usTLD and locality space, the Contractor is required to maintain a delegated manager database and a WHOIS database. Delegated managers are required to execute an agreement imposing certain technical and service requirements, as well as maintain publicly accessible accurate WHOIS and dispute resolution procedures. The current delegated manager agreement also requires locality domain managers to execute contracts with the .us

name holders it serves to ensure that these requirements and policies flow through to all .us name holders. The Contractor shall serve as delegated manager at no cost for domain name holders whose delegated manager will not execute the required agreement or whose identity is unknown. Domain name holders who do not register any sub-domains or service any .us domain name holders must execute a locality name registration agreement. The Contractor shall provide free registry and registration services for localities without a delegated manager. DOC seeks proposals that continue the improvements to the locality space and further improve the management and structure of the usTLD locality space.

C.1.4 In 2001, the usTLD expanded its structure to allow second-level registrations directly beneath the usTLD (e.g., organization.us). To maximize competition for second-level registrations, the Contractor shall not provide registrar services in the second-level usTLD space (except as otherwise specified). As of February 2013, 184 accredited usTLD registrars served the second-level usTLD space. The Contractor may establish fees for related services (see C.3.2.1). DOC seeks proposals that would increase utilization of the second-level space beneath the usTLD in an effort to better mirror the naming structure and use of the global DNS and serve the needs of the usTLD community.

C.1.5 As part of the introduction of second-level domain name registrations, certain names including city, state and local names, Federal Government names, and others were reserved to ensure their availability to these entities. As registrar for these reserved names, the current contractor developed a registration process. At the conclusion of the limited registration of these names, the current contractor released (for registration by the public) all city, state, and government names not included on the permanent reservation list. In addition, prior to the release of the kids.us names for general registration, the current contractor reserved certain Federal Government names for registration by these government entities. The Contractor also serves as registrar for such names. DOC seeks proposals to maintain and manage the permanent reservations list and reservations registration system. DOC also seeks proposals that include processes to modify and update management of the permanent reservations list to include, at a minimum, proposed processes for release of certain names where appropriate and proposed processes that would allow for operators of reserved names to transfer their names to accredited .us registrars other than the Contractor if they so choose.

C.1.6 The Dot Kids Implementation and Efficiency Act of 2002 (The Dot Kids Act) requires the initial and successor contractors to establish, maintain, and operate a second-level domain in the usTLD to provide a safe space on the Internet for children aged 13 and younger. Kids.us sites must comply with certain content standards and exclude hyperlinks that direct visitors away from the kids.us domain. Notwithstanding the June 2012 determination to suspend operation of kids.us domain under the current contract, DOC seeks proposals to rejuvenate the

kids.us space to increase utilization, utility, and awareness of the kids.us domain.¹

C.1.7 As the Internet and the DNS have evolved, so has the Internet policy making environment. Along those lines, the Contractor shall develop and maintain a constructive relationship with the usTLD stakeholder community, including but not limited to, locality space domain name holders, delegated managers, and domain name registrants, and implement processes to ensure input into, and feedback on, the quality performance of the requirements of the usTLD contract. Therefore, DOC seeks proposals that include a multistakeholder process to facilitate consultation with stakeholders to propose, comment, and provide input into management of the usTLD. Any proposed mechanism for ongoing community consultation on matters related to management of the usTLD, including policy development, should reflect the tenets of the multistakeholder approach. The goals of the multistakeholder approach or process should, at a minimum, include ensuring that the needs of current usTLD domain name holders are considered, ensure stakeholders feel policies will enhance the user experience and utility of the usTLD space, and provide a platform for ongoing discussion of evolving and emerging DNS issues. The Contractor shall encourage the participation of delegated managers, locality registrants, second-level registrants, and other interested usTLD stakeholders in any such process.

C.2 SCOPE OF SERVICES

C.2.1 The Contractor shall provide centralized management and coordination of registry, registrar (where specified), database, and information services for the usTLD. The usTLD provides a domain for American business, individuals, and localities and the locus for registering domain names for benefit and service of the Internet community in the United States. As such, the DOC intends the usTLD be available to a wide range of registrants. Accordingly, the Contractor must achieve the following:

C.2.1.1 Ensure community consultation on the management of the usTLD space by developing and implementing a process using the multistakeholder approach to facilitate consultation with stakeholders to propose, comment, and provide input into the management of the usTLD, including policy development (see C.1.7).

C.2.1.2 Ensure that procedures and an accountability framework for delegation and administration of the usTLD support a more robust, certain, and reliable DNS.

C.2.1.3 Promote increased use of the usTLD, including kids.us, by the Internet community of the United States (including small businesses, consumers, not-for-profit organizations, and

¹ On July 27, 2012, NTIA determined that the kids.us domain was not serving its intended purpose as per the Dot Kids Act (Dot Kids Implementation and Efficiency Act 2002, Pub. L. No. 107-317) and suspended operation of the kids.us domain until such time as NTIA determines that the domain can be operated as intended. Per statutory requirement this solicitation contains a requirement to operate the kids.us space.

state and local governments), with a residence or bona fide presence in the United States by introducing enhanced technical and other services, disseminating information about the usTLD, and improving registration and customer services.

C.2.1.4 Create a centrally administered and efficiently managed structure that ensures registrant and consumer confidence, and infrastructure stability by coordinating delegations and implementing other appropriate functions.

C.2.1.5 Create a stable, secure, and flexible usTLD environment that is attractive to both business and individual users; advances and encourages innovation, growth, and use of the space; and that will meet the future demands of potential registrants.

C.2.1.6 Ensure continued stability of the usTLD, particularly during transition from the current management structure to the Contractor's proposed structure and to any successor Contractor's structure.

C.2.1.7 Manage the usTLD consistent with established technical and administrative requirements.

C.2.1.8 Adequately protect intellectual property in the usTLD as developments in the second-level and the locality usTLD space may necessitate. In the event of further expansion of the usTLD space, the Contractor shall implement a "sunrise period" for qualified trademark owners to pre-register their trademarks as domain names prior to the wider registration for non-trademark owners and a dispute resolution procedure to address "cybersquatting" conflicts between trademarks and domain names in the usTLD.

C.2.1.9 Establish and maintain consistent communication between the Contracting Officer's Representative (COR) and the usTLD community (as referenced in C.1.7).

C.2.1.10 Abide by existing policy frameworks and best practices for the administration of ccTLDs (see C.5.1 (iv)) as well as participate in the Country Code Name Supporting Organization (ccNSO) and other related ccTLD policy organizations.

C.2.1.11 Consistent with this solicitation, promote robust competition within the usTLD, including registration services, to ensure greater choice and improved services for usTLD users.

C.3 DESCRIPTION OF SERVICES

C.3.1 The Contractor will manage, maintain, and operate the usTLD under NTIA's supervision. The Contractor shall perform the required services for this acquisition as a prime Contractor, not as an agent or subcontractor. The Contractor may, however, provide the required services by coordinating the resources and services of entities other than the prime Contractor. The

Contractor shall be: (a) incorporated in one of the fifty states of the United States or the District of Columbia; or (b) organized under a law of a state of the United States or the District of Columbia.

C.3.1.1 The Contractor shall possess and maintain through the performance of this procurement a physical address within the United States and must be able to demonstrate that all primary registry services will remain within the United States (including the District of Columbia).

C.3.2 The Contractor shall furnish the necessary personnel, material, equipment, services, and facilities to perform the requirements outlined in this Statement of Work without any cost to the U.S. Government.

C.3.2.1 On or after the effective date of this contract, the Contractor may establish and collect fees from third parties, other than the U.S. Government, for the requirements performed under this Contract. A possibility exists that the expenses incurred to perform the Contract may exceed the fees received during the base period or any option period of the Contract. The Contracting Officer shall approve such fees before they take effect, which approval shall not be unreasonably withheld and provided the fees are fair and reasonable.

C.3.2.2 In addition, the Contractor shall not implement any policies, procedures, rules, mechanisms, or execute any agreements or subcontracts in fulfillment of the Contract's requirements without the prior approval of the Contracting Officer, which approval shall not be unreasonably withheld.

C.4 CORE REGISTRY FUNCTIONS

C.4.1 The Contractor shall provide, at a minimum, the services listed below, although such services are not exhaustive of the requirements sought. The Contractor shall provide all systems, software, hardware, facilities, infrastructure, and operation for the following functions listed in C.4.2(i) – (xv), inclusive.

C.4.2 The Contractor shall:

- (i) Operate and maintain the primary authoritative server for the usTLD;
- (ii) Operate and administer a constellation of secondary servers for the usTLD;
- (iii) Compile, generate, and propagate the usTLD zone file(s);
- (iv) Maintain a publicly-accessible, accurate, and up-to-date registration (WHOIS) database for all usTLD registrations;

- (v) Maintain a publicly-accessible, accurate, and up-to-date registration (WHOIS) database of usTLD delegated managers and their associated delegated locality registrations;
- (vi) Establish a data escrow for usTLD zone file and domain name registration information, including all registration and delegated manager data;
- (vii) Comply with applicable Internet Engineering Task Force (IETF) RFCs, including RFC 1480, and Internet Corporation for Assigned Names and Numbers (ICANN) policies for the functions outlined herein;
- (viii) Promote awareness and increase registrations in the usTLD, including the second-level kids.us registration, and maintain a website with up-to-date policy and registration information for the usTLD;
- (ix) Develop and distribute to registrars provisioning protocol software and procedures to facilitate a secure and efficient interface with the usTLD registry and provide technical support to such registrars;
- (x) Perform annual technical compliance monitoring of locality delegees, and continually access zone file information for sub-delegees to compare the results with the centralized usTLD database to ensure the database is accurate and up-to-date;
- (xi) Ensure customer support and satisfaction by implementing procedures, guides, training, and other methods, as well as maintaining an automated reporting of registrar and registrant interaction with the usTLD registry;
- (xii) Ensure the security, reliability, and stability of the usTLD;
- (xiii) Implement and support Domain Name System Security Extension (DNSSEC) for the usTLD;
- (xiv) Serve as registrar for all reserved name registrations, including those in the kids.us second-level domain, and for all locality domains names not serviced by a delegated manager subject to an agreement with the Contractor. The Contractor will post a list of all reserved domains on a publicly-accessible website; and
- (xv) Develop and implement a process using the multistakeholder approach to facilitate consultation with stakeholders to propose, comment, and provide input into the management of the usTLD, including policy development (see C.1.7).

C.5 CORE POLICY REQUIREMENTS

C.5.1 The Contractor shall:

(i) Implement United States Nexus Requirement. The Contractor shall operate the usTLD as a country code top level domain intended to serve the Internet community of the United States, including businesses, consumers, individuals, not-for-profit organizations, and state and local governments with a residence or bona fide presence in the United States. In addition to the current policy set forth in RFC 1480 requiring that usTLD domain name registrations be hosted on computers located within the United States, the Contractor must implement a United States nexus policy for the locality-based usTLD structure and the second-level usTLD space.

(ii) Implement Registrar and Registrant Agreements. The Contractor shall establish contractual arrangements with all accredited usTLD registrars incorporating the requirements relating to usTLD policies such as nexus, WHOIS, and dispute resolution, and ensuring prompt, reliable, and effective technical and customer service. Such registrar agreements shall include a provision that will require registrars to offer DNSSEC services for new and renewed usTLD registrations. The Contractor shall require that each accredited usTLD registrar implement a registrant agreement that requires each registrant to agree to all applicable usTLD policies.

(iii) Implement a Uniform Domain Name Dispute Resolution Procedure and Sunrise Policy. The Contractor shall implement a uniform domain name dispute resolution procedure intended to resolve "cybersquatting" disputes in the usTLD. The Contractor may base such policy on other existing Uniform Domain Name Dispute Resolution Procedures and modify it as necessary to make such policy applicable to the usTLD specifically. The Contractor shall also implement a "sunrise period" for qualified trademark owners to pre-register their trademarks as domain names in the second-level usTLD space prior to the wider registration for non-trademark owners in the event future developments necessitate such action.

(iv) Abide by Existing Policy Frameworks and Best Practices for the Administration of ccTLDs. The Contractor shall abide by existing policy frameworks in the principles and procedures for the delegation and administration of ccTLDs, such as RFC 1591 Domain Name System Structure and Delegation, the Governmental Advisory Committee (GAC) Principles and Guidelines for the Delegation and Administration of Country-Code Top Level Domains, any ccTLD related policies, and any further official clarification of these policies unless inconsistent with U.S. law or regulation or otherwise directed by the DOC.

(v) Multistakeholder Consultation Process. The Contractor shall develop and implement a process using the multistakeholder approach to facilitate consultation with stakeholders to propose, comment, and provide input into the management of the usTLD, including policy

development (see C.1.7).

(vi) Implement and enforce policies concerning:

(a) Data Rights and Use. The Contractor shall prohibit the use of registrant and other data obtained from registrars and delegated managers for purposes other than providing usTLD administration services;

(b) Publicly Accessible, Accurate, and Up-to-Date WHOIS Database. The Contractor shall implement a policy that addresses continued public access to accurate WHOIS information, including a prohibition of proxy and anonymous services offered by registrars, registrar affiliates and partners, and delegated managers. The Contractor shall regularly monitor the current practices of registrars and delegated managers to ensure compliance with this requirement;

(c) Reserved Domain Names. The Contractor shall implement a policy to manage a list of permanently reserved names not available for registration, and if appropriate, the release of certain names that are currently reserved (see C.1.5 above);

(1) The Contractor shall post a list of all reserved names on a publicly accessible website.

(d) Domain Name Transfers. The Contractor shall implement a mechanism that facilitates the transfer of a domain name registration from one usTLD registrar to another usTLD registrar at the request of the domain name registrant.

(e) Redemption Grace Period. The Contractor shall implement a policy that allows registrants to restore domain name registrations within a reasonable time period after their expiration.

(f) Domain Name Review. The Contractor shall implement a policy that allows the Contractor the right to reasonably refuse registration of any domain name in the usTLD.

(g) Registration Abuse. The Contractor shall implement a policy that prevents and combats abuses of the usTLD registration system including practices that harm, mislead, or confuse consumers and that misuse intellectual property in the usTLD. This policy may include methods to curb the misuse of automated registration technologies and the add/drop grace period; and

(h) Other Policies. The Contractor may propose such other policies, amendments to current policies in this section (C.5.1), or additional procedures or mechanisms as are necessary to fulfill the Contract's requirements and increase the use of, or otherwise facilitate continued improvement of the usTLD.

(vii) Adhere to a Code of Conduct. The Contractor shall adopt a code of conduct requiring it to administer the usTLD impartially and without discriminating among or between eligible registrants, operate the usTLD in the public interest, and protect proprietary information of usTLD registrars.

C.6 LOCALITY-BASED USTLD STRUCTURE FUNCTIONS

C.6.1 The Contractor shall, at a minimum, incorporate the following into its policies and procedures for the locality-based usTLD structure:

(i) Provide Service for Existing Delegees and Registrants.

(a) The Contractor shall provide service and support for existing delegees and registrants in the locality-based usTLD structure.

(b) The Contractor shall develop and implement a procedure and a mechanism to ensure all delegated managers abide by usTLD policies and maintain certain minimum technical and service requirements for the locality registrants each serves. This shall include, at a minimum, the following:

(1) The Contractor shall develop appropriate minimum technical and service requirements for delegated managers;

(2) The Contractor shall develop a mechanism that facilitates each delegated manager's compliance with usTLD policies and requirements;

(3) With the consent of DOC, the Contractor shall rescind the delegation for delegated managers unwilling to agree to or abide by the usTLD policies and maintain minimum technical and service requirements;

(4) The Contractor shall serve as the delegated manager for a locality space when the Contractor has rescinded the delegation for any delegated manager as described in (3) above or the delegated manager for that locality space voluntarily relinquishes its delegation or seeks to change its status to become a locality registrant;

(5) The Contractor shall seek to identify all delegated managers and locality

registrants that are currently unknown; and

(6) The Contractor may propose amendments to current policies, additional procedures and mechanisms to facilitate continued improvement, use and utility of the locality space.

(ii) Provide Services for Undelegated Third Level Sub-Domains. The Contractor shall provide direct registry and registrar services for all other undelegated third-level locality sub-domains, including services for those names registered below CO (county) and CI (city) (e.g. Montgomery.co.us), and, undelegated affinity domains, such as those names registered below STATE, FED, K12, LIB, and NSN (e.g., agency.fed.us).

(iii) Maintain Modernized Locality-Based usTLD Processes. The Contractor shall maintain and update, as necessary, the existing automated locality-based usTLD delegation and registration process under the control of the usTLD administrator, including the electronic database of historical usTLD registration data.

(iv) Coordinate Locality-Based usTLD Users. The Contractor shall maintain a website for delegated managers, locality registrants, and other interested parties to provide information about the usTLD and to facilitate discussion of administrative, technical, customer service, and policy issues related to the operation and management of the locality-based usTLD structure.

(v) Maintain and Update WHOIS Database of usTLD Delegated Managers.

(a) The Contractor shall maintain, update, and make publicly available a database with current and verified contact information for all delegated managers in the usTLD, including locality-level and affinity second-level (where delegated) administrators and, where applicable, for all sub-delegations made by such locality-level or second level administrators.

(b) The WHOIS database shall support multiple string and field searching through a reliable, free, public, web-based interface.

(c) The WHOIS database shall, at a minimum, consist of the following elements:

(1) The name of the delegated manager;

(2) The Internet Protocol(IP) address of the primary nameserver and secondary nameserver(s) for the delegation;

(3) The corresponding names of such nameservers;

(4) The date of delegation;

- (5) The name, postal address, e-mail address, and telephone and fax numbers of the delegated manager;
- (6) The name, postal address, e-mail address, and telephone and fax numbers of the technical contact for the delegated manager;
- (7) The name, postal address, e-mail address, and telephone and fax numbers of the administrative contact for the delegated manager;
- (8) The website or other contact information through which the delegated manager accepts registrations under that delegation; and
- (9) The nexus category for the delegated manager and each of the other contacts listed above in C.6.1(v)(c)(5)-(7).

(vi) Maintain and Update Registrant WHOIS Database

(a) The Contractor shall maintain, update, and make publicly available a database with current and verified information for all locality-based usTLD registrants, including the registrants of delegated managers and, where applicable, registrants in delegated managers' sub-delegations.

In the event the contractor makes any changes at the direction of any person other than the Contracting Officer, the change will be considered to have been made without authority and no adjustment will be made in the contract terms and conditions, including price.

CONTRACTING OFFICER'S REPRESENTATIVE (COR) (CAR 1352.201-72) (APR 2010)

H.2 ORGANIZATIONAL CONFLICT OF INTEREST (CAR 1352.209-74) (APR 2010)

(a) Purpose. The purpose of this clause is to ensure that the contractor and its subcontractors:

(1) Are not biased because of their financial, contractual, organizational, or other interests which relate to the work under this contract, and

(2) Do not obtain any unfair competitive advantage over other parties by virtue of their performance of this contract.

(b) Scope. The restrictions described herein shall apply to performance or participation by the contractor, its parents, affiliates, divisions and subsidiaries, and successors in interest (hereinafter collectively referred to as "contractor") in the activities covered by this clause as a prime contractor, subcontractor, co-sponsor, joint venturer, consultant, or in any similar capacity. For the purpose of this clause, affiliation occurs when a business concern is controlled by or has the power to control another or when a third party has the power to control both.

the best of the contractor's knowledge and belief, there are no relevant facts or circumstances which would give rise to an organizational conflict of interest, as defined in FAR Subpart 9.5, and that the contractor has disclosed all relevant information regarding any actual or potential conflict. The contractor agrees it shall make an immediate and full disclosure, in writing, to the Contracting Officer of any potential or actual organizational conflict of interest or the existence of any facts that may cause a reasonably prudent person to question the contractor's impartiality because of the appearance or existence of bias or an unfair competitive advantage. Such disclosure shall include a description of the actions the contractor has taken or proposes to take in order to avoid, neutralize, or mitigate any resulting conflict of interest.

(d) Remedies. The Contracting Officer may terminate this contract for convenience, in whole or in part, if the Contracting Officer deems such termination necessary to avoid, neutralize or mitigate an actual or apparent organizational conflict of interest. If the contractor fails to disclose facts pertaining to the existence of a potential or actual organizational conflict of interest or misrepresents relevant information to the Contracting Officer, the Government may terminate the contract for default, suspend or debar the contractor from Government contracting, or pursue such other remedies as may be permitted by law or this contract.

The contractor shall identify and avoid, neutralize, or mitigate any subcontractor organizational conflict prior to award of the contract to the satisfaction of the Contracting Officer. If the subcontractor's organizational conflict cannot be avoided, neutralized, or mitigated, the contractor must obtain the written approval of the Contracting Officer prior to entering into the subcontract. If the contractor becomes aware of a subcontractor's potential or actual organizational conflict of interest after contract award, the contractor agrees that the Contractor may be required to eliminate the subcontractor from its team, at the contractor's own risk.

(g) Waiver. The parties recognize that this clause has potential effects which will survive the performance of this contract and that it is impossible to foresee each circumstance to which it might be applied in the future. Accordingly, the contractor may at any time seek a waiver from the Head of the Contracting Activity by submitting such waiver request to the Contracting Officer, including a full written description of the requested waiver and the reasons in support thereof.

The contractor agrees to immediately notify the Contracting Officer in writing in the event that the contractor determines or has reason to suspect a breach of this requirement has occurred.

(b) The contractor agrees that it will not disclose any information described in subsection (a) to any person unless prior written approval is obtained from the Contracting Officer. The contractor agrees to insert the substance of this clause in any consultant agreement or subcontract hereunder.

The contractor agrees to advise the Contracting Officer, in writing, of any other Government contract or subcontract it has performed or is performing which involves work directly related to the purpose of this contract. The contractor also certifies and agrees that any and all work performed under this contract shall be directly and exclusively for the use and benefit of the Government, and not incidental to any other work, pursuit, research, or purpose of the contractor, whose responsibility it will be to account for it accordingly.

H.6 HARMLESS FROM LIABILITY

The Contractor shall hold and save the Government, its officers, agents, and employees harmless from liability of any nature or kind, including costs and expenses to which they may be subject, for or on account of any or all suits or damages of any character whatsoever resulting from injuries or damages sustained by any person or persons or property by virtue of performance of this contract, arising or resulting in whole or in part from the fault, negligence, wrongful act or wrongful omission of the Contractor, or any subcontractor, their employees,

and agents.

H.8 NOTICE REQUIREMENT

The Contractor agrees that it will immediately inform the Contracting Officer and the Contracting Officer's Representative in the event that the Contractor's Chairman of the Board of Directors initiates any investigation by an independent auditor of potential corporate insolvency.

(D&B has no affiliation with this 4-character suffix.) This 4-character suffix may be assigned at the discretion of the business concern to establish additional System for Award Management records for identifying alternative Electronic Funds Transfer (EFT) accounts (see the FAR at [Subpart 32.11](#)) for the same concern.

“Registered in the System for Award Management (SAM) database” means that—

(1) The offeror has entered all mandatory information, including the DUNS number or the DUNS+4 number, the Contractor and Government Entity (CAGE) code, as well as data required by the Federal Funding Accountability and Transparency Act of 2006 (see [Subpart 4.14](#)) into the SAM database;

(b)(1) By submission of an offer, the offeror acknowledges the requirement that a prospective awardee shall be registered in the SAM database prior to award, during performance, and through final payment of any contract, basic agreement, basic ordering agreement, or blanket purchasing agreement resulting from this solicitation.

(2) The offeror shall enter, in the block with its name and address on the cover page of its offer, the annotation “DUNS” or “DUNS +4” followed by the DUNS or DUNS +4 number that identifies the offeror’s name and address exactly as stated in the offer. The DUNS number will be used by the Contracting Officer to verify that the offeror is registered in the SAM database.

(c) If the offeror does not have a DUNS number, it should contact Dun and Bradstreet directly to obtain one.

(1) An offeror may obtain a DUNS number—

(i) Via the Internet at <http://fedgov.dnb.com/webform> or if the offeror does not have internet access, it may call Dun and Bradstreet at 1-866-705-5711 if located within the United States; or

Under FAR Part 12, solicitations are not required to state the relative order of importance assigned to each evaluation factor and subfactor, nor are they required to include subfactors.

M.5 BASIS OF CONTRACT AWARD

Award of the Contract will be made to the responsive, responsible Offeror whose proposal, conforms to the Solicitation Requirements and represents the Best Value to the Government as determined by an objective evaluation of the proposal in accordance with the Evaluation Criteria. - Factor 3 Past Performance
- Factor 4 Financial Information and Project Funding Strategy

M.7 TECHNICAL EVALUATION FACTORS

Offerors must provide all certifications, documents, reports, proposed draft contracts and/or templates the Offeror proposes to use in fulfilling this acquisition, including proposed subcontracts. Each Offeror's Technical Approach must describe the following items:

In responding to these requirements, the Offeror must address each of the specific requirements and portions thereof contained in the above-referenced sections. The following provides additional supplemental guidance on particular sections (without in any way altering the need to respond to and address all of the above-referenced requirements in detail).

Each Offeror must describe in detail how the Offeror proposes to develop and implement a multistakeholder process to facilitate consultation with stakeholders to propose, comment, and provide input into the management of the usTLD, including policy development that reflects the tenets of the multistakeholder approach. In addition, describe how the Offeror plans to encourage participation in such a process by the usTLD stakeholder community (see C.1.7). Further, describe how the Offeror intends to document that a transparent and thorough multistakeholder policy development process was followed prior to the Contractor presenting any proposed policy and/or requirement amendments to the community and the Department of Commerce for review. Offerors should include an initial (representative, non-exhaustive) list of policies and requirements the Offeror anticipates the community could undertake as part of the multistakeholder policy development process. This list may reflect comments received by the DOC in response to its January 2013 Notice of Inquiry issued in preparation for this

solicitation. In addition, the Offeror will submit criteria and/or milestones for evaluating the progress towards implementing a process using the multistakeholder approach to policy making in the development and execution of policies for the usTLD (these may be specific or general but must allow for effective evaluation of implementation, *i.e.*, creation of a community webpage, outreach event).

Each Offeror must provide a copy of the Offeror's Conflict of Interest Policy. The Offeror's Conflict of Interest Policy must describe the company's proactive steps for preventing Conflicts of Interest. Factor 2. Management Approach

DOC will evaluate the quality, completeness, responsiveness, relevance, and credibility of overall proposed organizational resources and management controls to be employed to meet the performance and level of the effort needed. The ability to recruit, staff, and retain employees for this project is important. DOC will also evaluate the knowledge, skills, abilities, and certifications of the proposed personnel against the requirements identified in Section C of this Solicitation.

The Management Approach must cover the following information:

Brief history of the Offeror including (1) infrastructure; (2) Specific management plan for the contract including the identification of and plan to provide the technical resources and expertise necessary to provide the services described in Section C of this Solicitation. This includes the Offeror's plan and the ability to recruit, staff, and retain employees for this project. The Offeror must identify and describe the principal office for this contract and the total number employees to be assigned to the overall contract, and an organization chart depicting the layout of the proposed office structure, including identification of key personnel; (3) Provide resumes of proposed personnel that meet the requirements identified in Section C of this Solicitation.

Factor 3. Past Performance

Past Performance will be evaluated based on the quality of the Offerors' performance on relevant past or current contracts. Relevant is defined as those contracts that are the same or similar in nature and scope as the requirement outlined in the statement of work. Offerors must provide no more than three (3) past performance references for efforts similar in scope to this acquisition that were completed by the Offeror (either as a prime Contractor or as a first-tier subcontractor) in the past five (5) years.

The Government will use its discretion to determine the sources of past performance information used in the evaluation, and the information may be obtained from questions submitted by Offerors, contacts with other references provided by the Offerors, the agency's knowledge of contractor performance, other government agencies or commercial entities, or past performance databases.

In the case of an Offeror without a record of relevant past performance or for whom information on past performance is not available, the Offeror's proposal will be rated as "neutral."

NOTE: Offerors must provide the past performance questionnaire in Section J of this solicitation to their other clients/customers to be completed by them and returned to the Contracting Officer by the closing of this Solicitation. It is the responsibility of each Offeror to ensure its references are submitted to the Contracting Officer by this deadline.

Factor 4. Financial Information and Project Funding Strategy

Offerors must submit the following information to support this factor:

Project Funding and Reasonableness of Proposed Fees. The Offeror's proposal must include a Project Funding Plan containing a detailed description of how the Contractor will fund the requirements of this acquisition at no cost to the United States Government. The Offeror's proposal must project/estimate and explain the Offeror's annual costs, resources, and capabilities and financial fitness to fund this acquisition at no cost to the Government. Each Offeror must indicate whether they intend to charge fees. Contractor must describe those fees and submit documentation to justify that the fees are fair and reasonable. While both evaluated and rated as part of Factor 4, in the evaluation and rating of this Factor, the Offeror's financial fitness to fund the requirements of this acquisition is more important than proposed price(s) or fees to .us registrants.
