

## Broadband USA Applications Database

**Applicant Name:** FiberLight

---

### Public Notice Submissions

---

-----**Service Area:** Fiberlight\_Warrenton

**Submitter:** Shentel

**Comment:** Shentel has deployed a state-of-the-art fiber optic network that serves Ashburn, Front Royal, Winchester, Gainesville, and Warrenton. Available services include Ethernet (10 Mbps to 10 Gbps) and TDM services (T-1 to OC-192). Total system capacity is up to 800 Gbps. Shentel's fiber optic network is also within 2 miles of the proposed Manassas service area, within 2 miles of the proposed Leesburg service area, and within 4 miles of the proposed Purcellville service area.

-----**Service Area:** Fiberlight\_Winchester

**Submitter:** Shentel

**Comment:** Shentel has deployed a state-of-the-art fiber optic network that serves Ashburn, Front Royal, Winchester, Gainesville, and Warrenton. Available services include Ethernet (10 Mbps to 10 Gbps) and TDM services (T-1 to OC-192). Total system capacity is up to 800 Gbps. Shentel's fiber optic network is also within 2 miles of the proposed Manassas service area, within 2 miles of the proposed Leesburg service area, and within 4 miles of the proposed Purcellville service area.

-----**Service Area:** Fiberlight\_Purcellville

**Submitter:** Shentel

**Comment:** Shentel has deployed a state-of-the-art fiber optic network that serves Ashburn, Front Royal, Winchester, Gainesville, and Warrenton. Available services include Ethernet (10Mbps to 10Gbps)

and TDM services (T-1 to OC-192). Total system capacity is up to 800Gbps. Shentel's fiber optic network is also within 2 miles of the proposed Manassas service area, within 2 miles of the proposed Leesburg service area, and within 4 miles of the proposed Purcellville service area.

-----**Service Area:** Fiberlight\_Front Royal

**Submitter:** Shentel

**Comment:** Shentel has deployed a state-of-the-art fiber optic network that serves Ashburn, Front Royal, Winchester, Gainesville, and Warrenton. Available services include Ethernet (10 Mbps to 10 Gbps) and TDM services (T-1 to OC-192). Total system capacity is up to 800 Gbps. Shentel's fiber optic network is also within 2 miles of the proposed Manassas service area, within 2 miles of the proposed Leesburg service area, and within 4 miles of the proposed Purcellville service area.

-----**Service Area:** Fiberlight\_Gainesville

**Submitter:** Shentel

**Comment:** Shentel has deployed a state-of-the-art fiber optic network that serves Ashburn, Front Royal, Winchester, Gainesville, and Warrenton. Available services include Ethernet (10 Mbps to 10 Gbps) and TDM services (T-1 to OC-192). Total system capacity is up to 800 Gbps.
