Applicant Name: 1Prospect.com, Inc. (DBA One Prospect Technologies)

Public Notice Submissions

-----Service Area: Service Area

Submitter: Nsighttel Wireless, LLC (dba "Cellcom")

Comment: Cellcom makes available access to facilities based wireless broadband service at greater than the minimum broadband transmission speed as described in NOFA to more than 50% of the households in the existing service area mapped below. The map confirms that Cellcom’s existing service area overlaps with the proposed funded service area of 1Prospect.com, Inc.(DBA One Prospect Technologies)

Submitter: Charter Communications

Comment: Charter Communications (‘Charter’), a broadband service provider, has invested capital to provide a full range of Broadband services, including High Speed Internet services, in this service area. The applicant’s request in the proposed under-served and un-served service area would create an overlap in Charter’s service area. Charter’s response includes the necessary information to validate the overlapping condition as a result of this applicant’s request.

Submitter: CenturyLink

Comment: CenturyLink is submitting data that shows the application’s proposed service area is not underserved or unserved, under program guidelines. Accordingly, the application must be denied as ineligible. With limited funding and a large pool of applications, program grants and loans must be directed only to areas that are truly underserved or unserved, as stipulated in the program guidelines.

CenturyLink can certify that its affiliates currently offer broadband service in some or all of the applicant’s proposed service areas. Attached is a state map that is a representative sample of areas where the application overlaps our existing broadband deployment. CenturyLink also provides data showing broadband availability in our local telephone exchanges within the proposed service areas. We will provide additional information on request if that will further assist the agency’s review.
This data is not exhaustive; the application may include other areas also currently served with broadband by other providers, which should be considered in the assessment of the application. Our data combined with that of other broadband providers would likely show further duplication and overlap of broadband services in the proposed service areas.

Submitter: Rhinelander Telephone LLC

Comment: A portion of the applicant's territory is already served by the respondent. 3MG speed or higher is available and advertised.
