Applicant Name: KEPS TECHNOLOGIES, INC., d/b/a/ ACD.net, ACDtelecom.net

Public Notice Submissions

-----Service Area: KEPS TECHNOLOGIES, INC.

Submitter: AT&T

Comment: AT&T is providing data about its wireline and mobile broadband footprint to assist in determining whether the applicant's proposed service area, which may be part of a larger application and project, satisfies the unserved and underserved eligibility requirements. Additional information regarding other broadband service providers' currently operating in the service area may be needed in order to make a reasonable analysis or a conclusive determination.

Submitter: Comcast Cable

Comment: Attached is a summary of the Comcast Cable homes passed, subscriber and advertising information related to the service areas encompassed by this application.

Submitter: Charter Communications

Comment: Charter Communications (‘Charter’), a broadband service provider, has invested capital to provide a full range of Broadband services, including High Speed Internet services, in this service area. The applicant’s request in the proposed un-served service area would create an overlap in Charter’s service area. Charter’s response includes the necessary information to validate the overlapping condition as a result of this applicant’s request.

Submitter: Waldron Telephone Company
**Comment:** Waldron Telephone Company serves 189 access lines in more than half of Wright Township in Hillsdale County, Michigan, and is a past RUS borrower. We have just completed building a middle mile access fiber route which is shown by our new speeds of 1024/256, 1536/384, and 3000/512 and will allow a more reasonable price for its access cost, which in turn will be passed on to its customers by providing higher speeds at lower costs them. Waldron Telephone Company sells IP access on a wholesale basis offering it through NECA tariff#5. We feel that if the current mapping for Michigan would have been correct it would have eliminated unnecessary filings and comments. Waldron Telephone Company has made a commitment to meet its customers’ broadband needs now and in the future and feels no stimulus funds are needed in this region.
