Broadband USA Applications Database

Applicant Name: Skynet Country, LLC

-------------------Public Notice Submissions-------------------

-----Service Area: Upshur

Submitter: Etex Telephone Cooperative, Inc.

Comment: Etex Telephone Cooperative, Inc. is an ILEC providing reliable terrestrial broadband data service within portions of the proposed funding area. In Etex's many years of experience within this rural service territory, including experience operating a wireless CMRS affiliate, wireless broadband services are unlikely to be able to provide reliable broadband service throughout the area due to the size and density of local forests. Etex is currently capable of delivering 4-5mbps broadband service throughout much of its service territory.

-----Service Area: Morris

Submitter: Etex Telephone Cooperative, Inc.

Comment: Etex Telephone Cooperative, Inc. is an ILEC providing reliable terrestrial broadband data service within portions of the proposed funding area. In Etex's many years of experience within this rural service territory, including experience operating a wireless CMRS affiliate, wireless broadband services are unlikely to be able to provide reliable broadband service throughout the area due to the size and density of local forests. Etex is currently capable of delivering 4-5mbps broadband service throughout much of its service territory.

Submitter: Windstream

Comment: Windstream’s data strongly suggest that the proposed funded service area likely does not qualify as an unserved area. Windstream offers facilities-based, terrestrial broadband service at advertised speeds of greater than 768 kbps downstream and 200 kbps upstream to some of the households within the proposed funded service area, and such households can readily subscribe to Windstream’s broadband service upon request. Windstream also has reason to believe that competitive
broadband offerings are available in exchanges overlapping the proposed funded service area. Given this information, agency officials should further investigate existing broadband offerings within the proposed funded service area, so that officials can be sure that the area, in fact, qualifies as unserved.

Windstream is a communications and entertainment company with more than 1 million broadband customers in 16 states. Investing more than $200 million in broadband deployment over the last several years, Windstream now offers approximately 89% of its 3 million voice customers access to quality and affordable broadband service.

The agencies define an “unserved area” as follows: “Unserved area means a proposed funded service area, composed of one or more contiguous census blocks, where at least 90 percent of households in the proposed funded service area lack access to facilities-based, terrestrial broadband service, either fixed or mobile, at the minimum broadband transmission speed (set forth in the definition of broadband above). A household has access to broadband service if the household can readily subscribe to that service upon request.”

-----Service Area: Harrison

Submitter: Etex Telephone Cooperative, Inc.

Comment: Etex Telephone Cooperative, Inc. is an ILEC providing reliable terrestrial broadband data service within portions of the proposed funding area. In Etex's many years of experience within this rural service territory, including experience operating a wireless CMRS affiliate, wireless broadband services are unlikely to be able to provide reliable broadband service throughout the area due to the size and density of local forests. Etex is currently capable of delivering 4-5mbps broadband service throughout much of its service territory.

Submitter: Cable One, Inc.

Comment: Cable One, Inc. is a multi-system broadband provider operating in 19 states. Cable One offers residential broadband service with speeds up to 10 MB and customizable commercial solutions with flexible bandwidth offerings from 5Mbps to 1 Gbps. By November 1, 2009, the majority of Cable One systems will also be offering 12 Mb residential broadband service with a 20 MB boost. Cable One
provides its subscribers with quality service offerings at competitive rates. Cable One expends substantial capital and resources to ensure that customers enjoy the latest technology and the highest standards of customer service, and has made its customers and its communities its first priority.

Please refer to our supporting documentation and comments that establish that Cable One already operates in census tract(s) encompassing or included in Applicant’s Proposed Funded Service Area. The uploaded document includes maps showing census tracts and homes passed for each the applicable systems, current advertisements for residential and commercial broadband offerings, and subscriber data by census tract.

Cable one’s current broadband service offerings are as follows:

Residential:

Economy, Speed (Down/up) - 1.5 Mb/150 kbps, Service Rate - $20.00
Standard, Speed (Down/up) - 5 Mb/500 kbps, Service Rate - $43.00
Premium, Speed (Down/up) - 10 Mb/1 Mb, Service Rate - $53.00

Commercial:

Economy, Speed (Down/up) - 5 Mb/1.0 Mb, Service Rate - $69.65
Standard, Speed (Down/up) - 10.0 Mb/1.0 Mb, Service Rate - $85.95
Premium, Speed (Down/up) - 12.0 Mb/1.5 Mb, Service Rate - $99.95
Ultra, Speed (Down/up) - 15.0 Mb/2.0 Mb, Service Rate - $199.95
Enterprise Plus, Speed (Down/up) - 20.0 Mb/2.5 Mb, Service Rate - $299.95

Discounted bundles and promotional pricing are also available.
