Broadband USA Applications Database

Applicant Name: SyCom Services Corporation

Public Notice Submissions

-----Service Area: Cox Local

Submitter: The Southern Kansas Telephone Co., Inc.

Comment: The Southern Kansas Telephone Co., Inc. (SKT) has been providing service to rural Kansas communities for 70 years. SKT is committed to providing rural Kansans broadband service that helps both increase the quality of life and allows them to conduct business in a much more productive manner. As an example of this commitment, SKT began offering broadband service in 2001. SKT has continuously upgraded its fiber network over the years to meet the service needs of its customers. SKT currently offers broadband service up to and exceeding 12.0 M downloads and 1.0 M uploads. SKT customers benefit from local customer care, 24/7 support, multiple service discounts, free hardware and installation options that make broadband service more affordable and easier to get connected. SKT’s owners and 54 employees are local Kansans who understand the needs of their customers and the importance of supporting the rural communities they serve. To help these communities flourish in the future, SKT provides complimentary broadband service to all local municipalities, including city, police, fire, and EMS locations, as well as libraries and senior centers. SKT will continue to focus on providing vital broadband services for rural Kansans.

Submitter: KeyOn Communications

Comment: KeyOn Communications currently provides access at speeds of at least 768kbps downstream and at least 200kbps upstream to more than 50% of the homes in the designated area.

Submitter: Pixius Communications, LLC

Comment: Pixius Communications, LLC provides middle mile and last mile broadband Internet service in the proposed service area.

Submitter: Cox Communications, Inc
Comment:

Cox Communications, Inc. (Cox) is a broadband communications and entertainment company, providing advanced digital video, Internet, telephone and wireless services over its nationwide IP network. The third-largest U.S. cable TV company, Cox serves over 6.2 million residences and businesses.

Cox operates in hundreds of communities in 18 states and has invested over $16 billion in private capital in its network over the least ten years. Cox provides its customers in Kansas with 21st century infrastructure that provides advanced broadband, video and telephone services. More than 99.5 percent of the households in our service areas have access to Cox high-speed Internet, at some of the fastest broadband speeds available in the nation.

Cox supports the goals of the American Recovery and Reinvestment Act to extend broadband to parts of the country that are unserved or underserved. We appreciate the efforts of the Rural Utilities Service and the National Telecommunications and Information Administration in making sure that the limited amount of broadband stimulus funding available under the ARRA is targeted toward those consumers in greatest need, rather than to areas that already have access to broadband service.

To assist your agencies in ensuring that ARRA funds are directed to truly unserved and underserved areas, Cox is providing supplemental information that demonstrates, for the above-referenced application, the following: the location of Cox’s broadband infrastructure; broadband service levels provided; number of customers served; pricing for each service tier; and marketing materials which demonstrate service availability. Consistent with the statutory requirement to expend funds only for projects in eligible areas, we trust that your agencies will use this information -- along with information from other broadband providers -- to obtain a clear picture of service availability in the area covered by the application. We encourage the use of independent due diligence to determine the extent of other broadband service offerings in the proposed funded service area covered by this submission, if other providers fail to submit information prior to the submission deadline.

We request that this data be treated as confidential and proprietary. Much of the information provided with this letter constitutes trade secrets or commercial information that is privileged and confidential and therefore exempt from public disclosure under 5 U.S.C. § 552(b)(4). Cox does not disclose this information to the public, and release of this information could cause competitive harm, by enabling other broadband providers to tailor their business strategies to unfairly compete with Cox.
Thank you for the opportunity to submit this information. We trust that it will be helpful in your analysis, and will inform your final decision concerning the application.

Submitter: KanOkla Networks

Comment: KanOkla Networks has been providing our customers the best in telecommunications/data technology for almost 60 years. We are the leader in our service areas for rolling out new and innovative services to our subscribers. We currently offer broadband service, at speeds up to 6 Mbps, to 100% of our current and potential customers. KanOkla is in the midst of installing Fiber To The Home (FTTH) to all of our exchange areas, bringing the capability of 100 Mbps to all homes and businesses throughout our areas. This project, with its wealth of bandwidth for our subscribers, will position our communities for the future.
