**Broadband USA Applications Database**

**Applicant Name:** Parke County REMC

**Public Notice Submissions**

-----**Service Area:** Parke County

**Submitter:** Suddenlink Communications

**Comment:** This response conclusively demonstrates that Suddenlink and its competitors already offer broadband service within the mapped area of the applicant's proposed funded service area and that this mapped area is not unserved. Additional information is provided in the uploaded document, including (1) sample marketing material; (2) a guide on how to read the data we entered in the “Existing Broadband Subscribers” section of this response; (3) a summary of the vendor and methodology used for estimating competitive-service subscribers in the mapped area; (4) Suddenlink contact information, should one or more federal agencies have questions or require additional information; and (5) a summary of concerns with the response process and the limitations that process has placed on our ability to provide NTIA/RUS with relevant, timely data.

**Submitter:** AT&T

**Comment:** AT&T is providing data about its wireline and mobile broadband footprint to assist in determining whether the applicant's proposed service area, which may be part of a larger application and project, satisfies the unserved and underserved eligibility requirements. Additional information regarding other broadband service providers' currently operating in the service area may be needed in order to make a reasonable analysis or a conclusive determination.

**Submitter:** Clay County Rural Telephone Cooperative dba Endeavor

**Comment:** The area proposed to be served by the Applicant has broadband service available to it already by the local telephone provider, Clay County Rural Telephone Cooperative dba Endeavor
Communications. Because the area is already served by Endeavor Communications, the Applicant's submission should be rejected by virtue of not meeting the stimulus fund application requirements.
