Applicant Name: SIFACORE TECHNOLOGY LLC

Project Title: Rural Computer and Broadband Industry Education Centers (to include Disadvantaged and Disabled)

Project Type: Public Computer Center

_______________________ Executive Summary _______________________

The project will build and maintain rural Computer, Broadband Access and Education centers for farmers, miners, local businesses and Industry support. This will equally include career training in computer (software programming, database, hardware) and broadband for the disabled and disadvantaged; homeless and orphans. Holiday programs to support local schools and libraries. Career training for the Disabled and disadvantaged using broadband centers would enhance technology innovation. A center providing early education in Mathematics would encourage a culture to tap into creative minds long dormant.
