The following is a survey of all 50 states and the District of Columbia on key rights-of-way laws. The matrix includes citations to relevant state statutes and provides a brief description of key statutory provisions relating to jurisdiction, compensation, timelines, nondiscrimination, mediation, remediation and maintenance concerning access to public rights-of-way. The information in this survey was compiled through original research by NTIA, with reliance on existing research by NARUC and NATOA. Special thanks to NTIA interns Anne Mitchell, Sara Meadows Tolleson, and Alan Dobson for creating this matrix.

(Research compiled by NTIA, NARUC, and NATOA)
Municipalities have the right to determine charges for local telephone service, subject to the PUC’s powers, and to regulate the placement of telephone poles, lines, and other facilities.

Telecommunications companies or their equivalent are granted rights-of-way along public roads, over public lands, along navigable waters, and on private lands.

Telecommunications companies do not have the right to contract for exclusive rights to rights-of-way in this state.

Municipalities have the exclusive right to franchise utilities within their jurisdiction.

Protects authority of locals to exercise reasonable municipal and county police powers.

- **(b)** It is also the policy of this state that municipalities:
  1. retain the authority to manage a public right-of-way within the municipality to ensure the health, safety, and welfare of the public;
  2. receive from certificated telecommunications providers fair and reasonable compensation for the use of a public right-of-way within the municipality.

- **(c)** The purpose of this chapter is to establish a uniform method for compensating municipalities for the use of a public right-of-way by certificated telecommunications providers that:
  1. is administratively simple for municipalities and telecommunications providers;
  2. is consistent with state and federal law;
  3. is competitively neutral;
  4. is nondiscriminatory;

If a telecommunications provider is unsuccessful in contracting for a right-of-way over private land, then the company may condemn the land for its own purpose.

### Vermont

VT. Stat. Ann. tit. 30 § 2502 (2002). "Lines of wires along highways; wireless telecommunications facilities; construction; restriction. Lines of telegraph, telephone and electric wires, as well as two-way wireless telecommunications facilities, may, subject to the provisions of section 1111 of Title 19, be constructed and maintained by a person or corporation upon or under a highway, in such manner as not to interfere with repairs of such highway or the public convenience in traveling upon or using the same."

### Virginia

VA. Code Ann. § 56-458 (2002): Telecommunications companies have the right to build its system along public roads and railroads, on public lands, and along navigable waterways.

VA. Code Ann. § 56-458(B) (2002): Commercial mobile radio services are exempt from paying right-of-way fees.

VA. Code Ann. § 56-458(C) (2002): Municipalities and the Commonwealth Transportation Board are prohibited from unreasonably or discriminatorily restricting right-of-way use.

VA. Code Ann. § 56-462 (2002): "A. No incorporated city or town shall grant to any such telegraph or telephone corporation the right to erect its poles, wires, or cables, or to lay its conduits upon or beneath its parks, streets, avenues, or alleys until such company shall have first obtained, in the manner prescribed by the laws of this Commonwealth, the franchise to occupy the same."

VA. Code Ann. § 56-458(D)(2002): Transportation Board has 45 days to grant or deny approval for use of right-of-way, and if denied it must provide a written explanation of the reasons the permit was denied and the actions required to cure the denial.

VA. Code Ann. § 56-467 (2002): Utility must restore the right-of-way to a good condition, and if it does not, the municipality may complete the restoration and recover costs from the utility.
